

## Table of Contents

### Table Description

<a href="#"><u>1</u></a>	1A/1B_1. [It is important to prevent the extinction of wild plants and animals in Canada.] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>2</u></a>	1A/1B_2. [Landowners have a moral obligation to not harm endangered plants and animals on their property.] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>3</u></a>	1A/1B_4. [It is necessary for the government to put limits on private property rights in order to protect endangered plants and animals.] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>4</u></a>	1A/1B_6. [It is necessary for the government to prevent industrial development in certain areas in order to protect endangered plants and animals.] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>5</u></a>	1A/1B_8. [I support tax dollars being spent on protecting endangered plants and animals in Canada.] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>6</u></a>	1A_1. [ It is important to prevent the extinction of wild plants and animals in Canada. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>7</u></a>	1A_2. [ Landowners have a moral obligation to not harm endangered plants and animals on their property. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>8</u></a>	1A_3. [ The Jefferson salamander is endangered, and only found in a few locations in Canada. If a landowner finds a Jefferson salamander on his or her property, they should leave it alone and not harm it. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>9</u></a>	1A_4. [ It is necessary for the government to put limits on private property rights in order to protect endangered plants and animals. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>10</u></a>	1A_5. [ The red mulberry is one of the most endangered trees in Canada, found at only 21 sites in southern Ontario. If a landowner has red mulberry trees on their property, they should not be permitted to build new buildings, create new trails, or do any other activity on their land if it involves cutting down or harming the trees. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>11</u></a>	1A_6. [ It is necessary for the government to prevent industrial development in certain areas in order to protect endangered plants and animals. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>12</u></a>	1A_7. [ The greater sage grouse is a bird that lives in the grasslands of southern Alberta and Saskatchewan. There are only about 150 sage grouse left in Canada, although there are many more birds in the United States. Research has shown that the sage grouse cannot mate and raise their young successfully in areas near active oil wells. The federal government recently issued an emergency order to restrict construction and loud industrial noise in part of the remaining habitat of the sage grouse. The government is on the right track in limiting industrial activities in this area in an effort to save the sage grouse. ] Please indicate the extent to which you agree or disagree with each of the following statements.

<a href="#"><u>13</u></a>	1A_8. [ I support tax dollars being spent on protecting endangered plants and animals in Canada. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>14</u></a>	1B_1. [ It is important to prevent the extinction of wild plants and animals in Canada. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>15</u></a>	1B_2. [ Landowners have a moral obligation to not harm endangered plants and animals on their property. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>16</u></a>	1B_3. [ A landowner should have the right to capture, move or remove any plant or animal he or she encounters on his or her property, even if this could result in destroying the plant or animal in the process. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>17</u></a>	1B_4. [ It is necessary for the government to put limits on private property rights in order to protect endangered plants and animals. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>18</u></a>	1B_5. [ The red mulberry is one of the most endangered trees in Canada, found at only 21 sites in southern Ontario. Despite this, it would be unfair to restrict a landowner's ability to build new buildings, create new trails, or otherwise develop his or her property simply because red mulberry trees are growing there, and may need to be cut down in the process. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>19</u></a>	1B_6. [ It is necessary for the government to prevent industrial development in certain areas in order to protect endangered plants and animals. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>20</u></a>	1B_7. [ The greater sage grouse is a bird that lives in the grasslands of southern Alberta and Saskatchewan. There are only about 150 sage grouse left in Canada, although there are many more birds in the United States. Research has shown that the sage grouse cannot mate and raise their young successfully in areas near active oil wells. However, given the economic importance of the oil industry in Canada, especially the thousands of jobs it provides, it makes sense to continue with oil well development even if it means that no sage grouse can survive in Canada. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>21</u></a>	1B_8. [ I support tax dollars being spent on protecting endangered plants and animals in Canada. ] Please indicate the extent to which you agree or disagree with each of the following statements.
<a href="#"><u>22</u></a>	2. Who do you think should take primary responsibility for preventing the extinction of endangered plants and animals in Canada?
<a href="#"><u>23</u></a>	3. The Canadian federal government reports that since 2006 over \$500 million has been spent to protect Canada's diverse species. This amounts to approximately \$2 per Canadian, per year. Do you think this amount is:
<a href="#"><u>24</u></a>	4. In your opinion, how much money should the federal government spend on protecting endangered plants and animals in Canada?
<a href="#"><u>25</u></a>	5. Do you own a parcel of land that is 5 acres in size or larger?
<a href="#"><u>26</u></a>	GENDER
<a href="#"><u>27</u></a>	AGE
<a href="#"><u>28</u></a>	EDUCATION
<a href="#"><u>29</u></a>	REGION

The greater sage grouse is a bird that lives in the grasslands of southern Alberta and Saskatchewan. There are only about 150 sage grouse left in Canada, although there are many more birds in the United States. Research has shown that the sage grouse cannot mate and raise their young successfully in areas near active oil wells. The federal government recently issued an emergency order to restrict construction and loud industrial noise in part of the remaining habitat of the sage grouse. The government is on the right track in limiting industrial activities in this area in an effort to save the sage grouse.

The red mulberry is one of the most endangered trees in Canada, found at only 21 sites in southern Ontario. Despite this, it would be unfair to restrict a landowner's ability to build new buildings, create new trails, or otherwise develop his or her property simply because red mulberry trees are growing there, and may need to be cut down in the process.

Weighted	516	74	51	30	190	137	34	158	70	133	82	121	394
The greater sage grouse is a bird that lives in the grasslands of southern Alberta and Saskatchewan. There are only about 150 sage grouse left in Canada, although there are many more birds in the United States. Research has shown that the sage grouse cannot mate and raise their young successfully in areas near active oil wells. However, given the economic importance of the oil industry in Canada, especially the thousands of jobs it provides, it makes sense to continue with oil well development even if it means that no sage grouse can survive in Canada.
