## IPSOS GO FURTHER

At Ipsos we wish to build and increase our social responsibility. We have, therefore, identified a number of issues within the areas of climate, children and refugees which we would like to support through voluntary work and by carrying out a number of analyses of themes which do not currently receive enough attention.

We have also decided to organise a series of fundraising activities, and it is with great pleasure we are inviting you to our first  
**– IPSOS GO FURTHER**

Ipsos Go Further is a fundraising event where we will go on a guided walk through the streets of Copenhagen for a good cause.

It will take place on Sunday the 4th of September. All current and past employees, customers, suppliers and other friends of the house and their families are very welcome.

We will organise refreshments for both adults and children during the walk. There will be walks accompanied by both Danish-speaking and English-speaking guides.

We are looking forward to the first Ipsos Go Further event and sincerely hope that you and your family would like to join us at the event.

All the very best
