

# Personal banking service quality – Northern Ireland

## Independent service quality survey results

### Personal current accounts

Published August 2022

As part of a regulatory requirement, an independent survey was conducted to ask approximately 500 customers of each of the **11 largest personal current account providers** if they would recommend their provider to friends and family. The results represent the view of customers who took part in the survey.

These results are from an independent survey carried out between July 2021 and June 2022 by Ipsos as part of a regulatory requirement, and we have published this information at the request of the providers and the Competition and Markets Authority so you can compare the quality of service from personal current account providers. In providing this information, we are not giving you any advice or making any recommendation to you.

Customers with personal current accounts were asked how likely they would be to recommend their provider, their provider's online and mobile banking services, services in branches and overdraft services to friends and family. The results show the proportion of customers, among those who took part in the survey, of each provider who said they were 'extremely likely' or 'very likely' to recommend each service.

Participating providers: AIB, Bank of Ireland UK, Barclays, Danske Bank, Halifax, HSBC UK, Monzo, Nationwide, Santander, Starling Bank, Ulster Bank.

Approximately 500 customers a year are surveyed across Northern Ireland for each provider; results are only published where at least 100 customers have provided an eligible score for that service in the survey period.

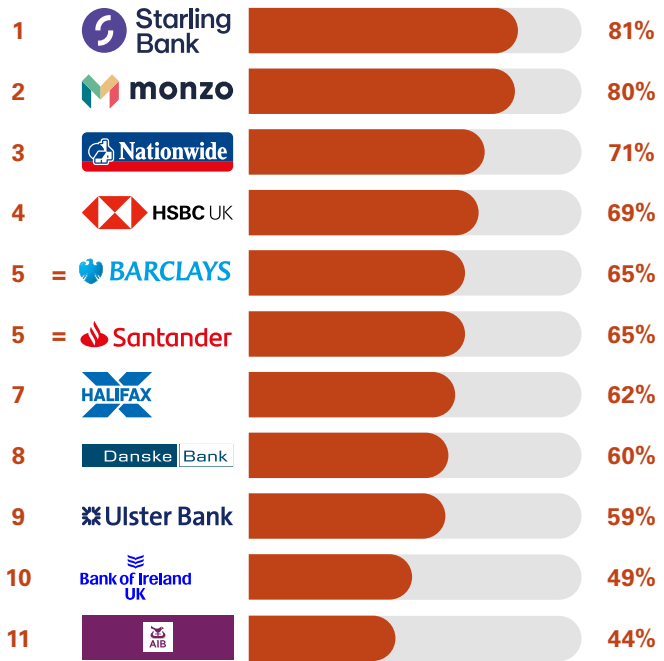

5,550 people were surveyed in total.

Results are updated every six months, in August and February.
