

REUTERS / IPSOS CORE POLITICAL DATA

Presidential Approval Tracker

June 25, 2025

Reuters/Ipsos Core Political Data

These are findings from a Reuters/Ipsos poll conducted **June 20-22, 2025**. A sample of **1,144** Americans ages 18+ were interviewed online for this survey using the probability-based KnowledgePanel®.

This included **337** Democrats, **335** Republicans, and **350** independents.

The precision of the Reuters/Ipsos Core Political is measured using a margin of error which includes the design effect error. In this case, the poll has a margin of error of plus or minus the following percentage points:

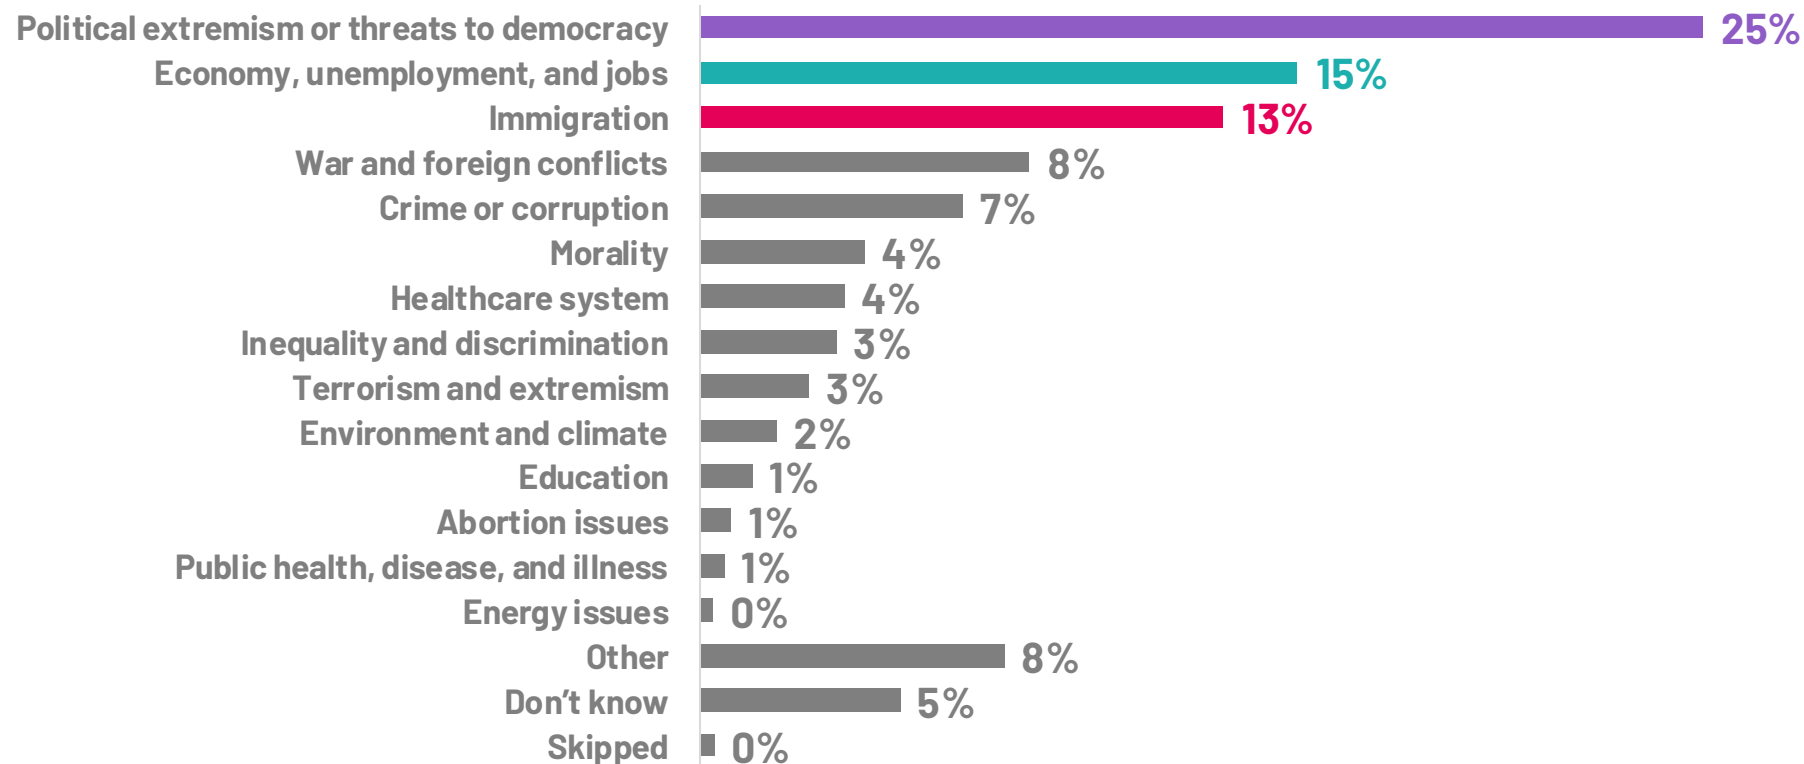

3.1 for All Adults, **5.6** for Democrats, **5.6** for Republicans, and **5.5** for independents.

The data from this survey was weighted to the U.S. current population data using gender by age, race/ethnicity, education, Census region, metropolitan status, household income, and political party affiliation.

All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error and measurement error. Where figures do not sum to 100, this is because of rounding. See page 8 for full methodology.

Most Important Problem Facing America

In your opinion, what is the most important problem facing the U.S. today?

Methodology

Methodology

This Ipsos poll was conducted June 20-22, 2025, by Ipsos using the probability-based KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,144 general population adults aged 18 or older.

The margin of sampling error for this study is plus or minus 3.1 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.16. The margin of sampling error is higher and varies for results based on other sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

The survey was conducted using KnowledgePanel®, the most well-established online probability-based panel that is representative of the adult U.S. population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households invited to join the panel are randomly selected from all available households in the U.S. Persons in the sampled households are invited to join and participate in the panel. Those selected who do not already have internet access are provided a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methodologies, samples from KnowledgePanel® cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The data were weighted to adjust for gender by age, race/ethnicity, education, Census region, metropolitan status, household income, and political party affiliation. The demographic benchmarks came from the 2024 March supplement of the U.S. Census Bureau's Current Population Survey (CPS). The data for political party came NPORS 2024.

ABOUT IPSOS

Ipsos is one of the largest market research and polling companies globally, operating in 90 markets and employing over 18,000 people. Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. Our 75 solutions are based on primary data from our surveys, social media monitoring, and qualitative or observational techniques.

Ipsos is listed on Eurolist – NYSE – Euronext. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
