3. Aecon Group is a major Canadian construction and engineering firm, a leading contractor on B.C.'s Site C dam project and on several nuclear power, oil and gas facilities and pipelines, and Light Rapid Transit projects across Canada. Last October, Aecon Group announced it was being acquired by CCCC International Holding Ltd. (CCCI), a subsidiary of China Communications Construction Ltd., one of the world's largest infrastructure companies. China Communications Construction is a Chinese state-owned enterprise. The deal is worth \$1.5 billion. On February 12, Aecon announced that approval was delayed while the federal government completes a national security review of the deal. Would you say that you support or oppose the sale of Aecon to CCCC?
