Table of Contents

	Table Description
1	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
2	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
3	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
4	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
5	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
6	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
7	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
8	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
9	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
10	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking

11	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
12	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
13	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
14	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
15	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
16	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
17	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
18	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
19	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
20	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
21	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
22	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking

23	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
24	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
25	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
26	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
27	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
28	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
29	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
30	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
31	Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
32	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
33	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
34	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting

35	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
36	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
37	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
38	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
39	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
40	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
41	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
42	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
43	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
44	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
45	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
46	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting

47	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
48	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
49	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
50	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
51	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
52	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
53	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
54	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
55	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
56	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
57	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
58	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting

59	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
60	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
61	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
62	Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
63	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
64	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
65	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
66	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
67	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
68	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
69	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
70	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city

71	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
72	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
73	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
74	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
75	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
76	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
77	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
78	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
79	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
80	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
81	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
82	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city

83	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
84	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
85	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
86	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
87	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
88	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
89	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
90	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
91	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
92	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
93	Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
94	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway

95	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
96	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
97	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
98	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
99	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
100	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
101	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
102	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
103	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
104	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
105	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
106	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway

107	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
108	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
109	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
110	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
111	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
112	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
113	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
114	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
115	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
116	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
117	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
118	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway

119	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
120	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
121	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
122	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
123	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
124	Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
125	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
126	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
127	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
128	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
129	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
130	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather

131	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
132	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
133	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
134	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
135	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
136	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
137	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
138	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
139	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
140	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
141	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
142	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather

143	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
144	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
145	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
146	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
147	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
148	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
149	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
150	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
151	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
152	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
153	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
154	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather

155	Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
156	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
157	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
158	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
159	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
160	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
161	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
162	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
163	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
164	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
165	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
166	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers

167	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
168	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
169	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
170	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
171	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
172	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
173	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
174	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
175	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
176	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
177	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
178	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers

179	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
180	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
181	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
182	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
183	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
184	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
185	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
186	Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
187	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
188	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
189	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
190	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone

191	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
192	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
193	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
194	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
195	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
196	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
197	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
198	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
199	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
200	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
201	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
202	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone

203	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
204	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
205	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
206	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
207	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
208	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
209	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
210	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
211	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
212	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
213	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
214	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone

215	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
216	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
217	Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
218	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
219	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
220	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
221	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
222	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
223	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
224	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
225	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
226	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places

227	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
228	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
229	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
230	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
231	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
232	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
233	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
234	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
235	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
236	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
237	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
238	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places

239	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
240	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
241	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
242	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
243	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
244	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
245	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
246	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
247	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
248	Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
249	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
250	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic

251	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
252	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
253	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
254	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
255	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
256	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
257	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
258	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
259	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
260	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
261	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
262	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic

263	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
264	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
265	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
266	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
267	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
268	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
269	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
270	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
271	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
272	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
273	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
274	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic

275	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
276	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
277	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
278	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
279	Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
280	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
281	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
282	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
283	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
284	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
285	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
286	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances

287	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
288	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
289	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
290	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
291	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
292	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
293	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
294	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
295	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
296	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
297	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
298	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances

299	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
300	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
301	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
302	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
303	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
304	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
305	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
306	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
307	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
308	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
309	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
310	Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances

311	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
312	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
313	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
314	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
315	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
316	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
317	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
318	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
319	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
320	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
321	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
322	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances

323	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
324	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
325	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
326	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
327	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
328	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
329	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
330	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
331	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
332	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
333	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
334	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances

335	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
336	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
337	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
338	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
339	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
340	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
341	Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
342	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
343	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
344	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
345	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
346	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places

347	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
348	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
349	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
350	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
351	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
352	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
353	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
354	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
355	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
356	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
357	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
358	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places

359	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
360	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
361	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
362	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
363	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
364	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
365	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
366	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
367	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
368	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
369	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
370	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places

371	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
372	Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places

Global @dvisor: Driverless Cars
Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
Proportions/Means: Overlap formulae used

Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
Proportions/Means: Overlap formulae used

Global @dvisor: Driverless Cars
Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking

Global @dvisor: Driverless Cars
Q1_1. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Parking
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Q1_2. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Commuting
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Global @dvisor: Driverless Cars
Q1_3. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in the city
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Global @dvisor: Driverless Cars
Q1_4. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving on the highway
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:

Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Global @dvisor: Driverless Cars
Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Global @dvisor: Driverless Cars
Q1_5. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in bad weather
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_6. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving with passengers
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Q1_7. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving alone
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_8. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in scenic places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Minimum Base: 30 (**), Small Base: 100 (*)

Q1_9. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in heavy/stop-and-go traffic
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_10. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving short distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Global @dvisor: Driverless Cars
Q1_11. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving long distances
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X/Y/Z/a/b

Global @dvisor: Driverless Cars
Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U,V/W/X

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)

Global @dvisor: Driverless Cars
Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

Global @dvisor: Driverless Cars
Q1_12. For this question, please assume that, in 10 years, all passenger vehicles will be equipped with automation technology so they can be used in "self-driving" mode anytime and anywhere, as desired. If so, how often do you expect that you will use a vehicle in "self-driving" mode for each of the following: - Driving in unfamiliar places
Proportions/Means: Overlap formulae used
- Column Proportions:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U
  Minimum Base: 30 (**), Small Base: 100 (*)
- Column Means:
  Columns Tested (5%): A/B,C/D/E,F/G/H,I/J,K/L/M,N/O,P/Q,R/S,T/U

  Minimum Base: 30 (**), Small Base: 100 (*)
