3. At present, individuals moving from one province to another, for example to be closer to family, may have to wait up to 3 months before receiving health care coverage. To what extent would you support new federal funding to the provinces to eliminate this potential delay in receiving health coverage for seniors moving to another province?

4. Despite our publicly-funded health care system, seniors and their families often must cover a portion of the costs for home care, long-term care and other caregiving services. To what extent would you support a new family care benefit that will provide financial assistance to families so that more seniors can afford the care they need?
