1	S1. What is your telephone area code?
2	1. As you may know, in Canada, alcohol, tobacco and prescription drugs are regulated by governments. The possession of certain drugs, such as cocaine and heroin, for personal use is a criminal offence. To what degree do you think the current approach to drugs in Canada is working?
3	2. As far as you know, what are the negative health and social effects of the Canadian laws that make it a crime to possess certain drugs for personal use?
4	3. Research has identified a range of harms caused by our drug laws, including stigma and discrimination, increased rates of HIV and hepatitis, and difficulty finding employment or housing due to a criminal record. Before today, how much had you read, seen or heard about the potential health and social harms of Canadian laws that make it a crime to possess certain drugs for personal use?
5	4. Some people feel Canada should take a public health approach to drugs that are illegal now. A public health approach to drugs includes increased access to comprehensive, evidence-based prevention, harm reduction and treatment services. It can also include the decriminalization of drugs for personal use and possession or the legal regulation of drugs. (Under decriminalization, the possession of drugs for personal use is allowed, but the production and sale of drugs remains illegal. Under legal regulation, the possession of drugs for personal use is legal under certain circumstances, and the production and sale are regulated by government in various ways (e.g., like alcohol and tobacco). To what degree would you support a public health approach to drugs that are illegal now?
6	4B. And why do you say that?
7	4B. And why do you say that? - Support at Q4
8	4B. And why do you say that? - Oppose at Q4
9	5_1. In the past year, have you... - Personally...
10	5_2. In the past year, have you... - Been with friends or family that have...
