Table 111

QA14. Imagine that the ladder shown below shows how British society is set up.

At the top of the ladder are the people who are the best off - they have the most money, the highest amount of education, and the jobs that bring the most respect.

At the bottom are the people who are worst off - they have the least money, little or no education, no job or jobs that no-one wants or respects.

Thinking about your family, tick the box next to the number that best describes where your family would be on this ladder.

Base : All participants

Table 113

QA14. Imagine that the ladder shown below shows how British society is set up.

At the top of the ladder are the people who are the best off - they have the most money, the highest amount of education, and the jobs that bring the most respect.

At the bottom are the people who are worst off - they have the least money, little or no education, no job or jobs that no-one wants or respects.

Thinking about your family, tick the box next to the number that best describes where your family would be on this ladder.
