IPSOS POLL CONDUCTED FOR REUTERS

Core Political Data

These are findings from an Ipsos poll conducted

for

date

October 3-9, 2018

For the survey,

a sample of

3,708
Americans

including

2,012
All Likely Voters

902
Likely Voters:
Democrats

794
Likely Voters:
Republicans

264
Likely Voters:
Independents

ages

18+

were interviewed online

Core Political Data

The precision of the Reuters/Ipsos online polls is measured using a credibility interval.

In this case, the poll has a credibility interval of plus or minus the following percentage points

For more information about credibility intervals, please see the appendix.

Core Political Data

- The data were weighted to the U.S. current population data by:
 - **Gender**
 - **Age**
 - **Education**
 - **Ethnicity**
 - **Region**
- Statistical margins of error are not applicable to online nonprobability polls.
- All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error and measurement error.
- Figures marked by an asterisk (*) indicate a percentage value of greater than zero but less than one half of one per cent.
- Where figures do not sum to 100, this is due to the effects of rounding.
- *To see more information on this and other Reuters/Ipsos polls, please visit:

Right Direction/Wrong Track

Generally speaking, would you say things in this country are heading in the right direction, or are they off on the wrong track?

Likely Voters: Democrats

Likely Voters: Republicans

Likely Voters: Independents

Main Problem Facing America

In your opinion, what is the most important problem facing the US today?

	All Adults	All Likely Voters	Likely Voters: Democrat	Likely Voters: Republican	Likely Voters: Independent
Economy generally	12%	12%	10%	14%	13%
Unemployment / lack of jobs	5%	3%	4%	1%	3%
War / foreign conflicts	2%	2%	1%	2%	2%
Immigration	10%	11%	6%	19%	5%
Terrorism / terrorist attacks	8%	9%	6%	13%	6%
Healthcare	20%	23%	28%	15%	28%
Energy issues	1%	1%	1%	0%	0%
Morality	10%	11%	10%	12%	9%
Education	5%	4%	4%	3%	6%
Crime	7%	6%	5%	7%	4%
Environment	4%	4%	7%	1%	5%
Don't know	4%	2%	2%	1%	1%
Other	11%	14%	15%	11%	18%

ALL ADULT AMERICANS

Main Problem Facing America

DONALD TRUMP

Overall, do you approve or disapprove about the way Donald Trump is handling his job as President?

Is that strongly (approve/disapprove) or somewhat (approve/disapprove)? (Asked of those who selected “approve” or “disapprove”)
 Q2b. If you had to choose, do you lean more towards approve or disapprove? (Asked of those who selected “don’t know”)

	All Adults	All Likely Voters	Likely Voters: Democrat	Likely Voters: Republican	Likely Voters: Independent
Strongly approve	20%	26%	4%	56%	16%
Somewhat approve	15%	14%	3%	26%	15%
Lean towards approve	3%	2%	0%	2%	5%
Lean towards disapprove	2%	1%	1%	1%	0%
Somewhat disapprove	12%	11%	12%	7%	15%
Strongly disapprove	41%	45%	79%	6%	45%
Not sure	7%	2%	1%	1%	5%
TOTAL APPROVE	39%	42%	7%	85%	35%
TOTAL DISAPPROVE	55%	57%	92%	14%	60%

ALL ADULT AMERICANS

Weekly Approval

Approval Attributes

Do you approve or disapprove about the way Donald Trump is handling the following issues?

	Strongly approve	Somewhat approve	Lean towards approve	Lean towards disapprove	Somewhat disapprove	Strongly disapprove	Don't know	TOTAL APPROVE	TOTAL DISAPPROVE
The US economy	22%	13%	12%	9%	8%	27%	9%	46%	44%

White House Exits

Of the following White House or Executive Branch staff members, who do you believe will be the next to resign or be terminated? Will it be...

	Yes
Jeff Sessions, Attorney General	20%
John F. Kelly, Chief of Staff	7%
Sarah Sanders, Press Secretary	6%
Betsy DeVos, Secretary of Education	5%
Jared Kushner, Senior Adviser to the President	5%
Mike Pompeo, Secretary of State	5%
Kellyanne Conway, Senior Counselor	5%
Kirstjen Nielsen, Secretary of Homeland Security	3%
James Mattis, Secretary of Defense	3%
Steve Mnuchin, Treasury Secretary	3%
Mike Pence, Vice President	3%
Nikki Haley, U.N. Ambassador	3%
Wilbur Ross, Secretary of Commerce	2%
John R. Bolton, National Security Advisor	2%
Bill Shine, White House Communications Director	2%
Stephen Miller, Senior Advisor for Policy	2%
Robert Lighthizer, Trade Representative	2%
Sonny Perdue, Agriculture Secretary	1%

Congressional Approval

Split Sampled

Overall, do you approve or disapprove about the way your Congressperson is handling their job as Representative?

	All Adults	All Likely Voters	Likely Voters: Democrat	Likely Voters: Republican	Likely Voters: Independent
Strongly approve	11%	16%	17%	19%	8%
Somewhat approve	29%	35%	32%	41%	35%
Somewhat disapprove	18%	21%	22%	17%	27%
Strongly disapprove	16%	19%	22%	13%	23%
Don't know	25%	9%	8%	9%	8%
TOTAL APPROVE	40%	51%	48%	61%	43%
TOTAL DISAPPROVE	35%	39%	43%	30%	49%

Overall, do you approve or disapprove about the way Congress as a whole is handling its job?

	All Adults	All Likely Voters	Likely Voters: Democrat	Likely Voters: Republican	Likely Voters: Independent
Strongly approve	5%	6%	5%	8%	2%
Somewhat approve	18%	18%	8%	31%	17%

How to Calculate Bayesian Credibility Intervals

The calculation of credibility intervals assumes that Y has a binomial distribution conditioned on the parameter θ , i.e., $Y|\theta \sim \text{bin}(n, \theta)$, where n is the size of our sample. In this setting, Y counts the number of “yes”, or “1”, observed in the sample, so that the sample mean (\bar{y}) is a natural estimate of the true population proportion θ . This model is often called the likelihood function, and it is a standard concept in both the Bayesian and the classical framework. The Bayesian¹ statistics combines both the prior distribution and the likelihood function to create a posterior distribution.

The posterior distribution represents our opinion about which are the plausible values for θ adjusted after observing the sample data. In reality, the posterior distribution is one’s knowledge base updated using the latest survey information. For the prior and likelihood functions specified here, the posterior distribution is also a beta distribution ($\pi(\theta|y) \sim \beta(y+a, n-y+b)$), but with updated hyper-parameters.

Our credibility interval for θ is based on this posterior distribution. As mentioned above, these intervals represent our belief about which are the most plausible values for θ given our updated knowledge base. There are different ways to calculate these intervals based on $\pi(\theta|y)$. Since we want only one measure of precision for all variables in the survey, analogous to what is done within the classical framework, we will compute the largest possible credibility interval for any observed sample. The worst case occurs when we assume that $a=1$ and $b=1$ and $y=n/2$. Using a simple approximation of the posterior by the normal distribution, the 95% credibility interval is given by, approximately:

$$\bar{y} \pm \frac{1}{\sqrt{n}}$$

How to Calculate Bayesian Credibility Intervals

FOR THIS POLL

The Bayesian credibility interval was adjusted using standard weighting design effect $1+L=1.3$ to account for complex weighting²

Examples of credibility intervals for different base sizes are below:

	SAMPLE SIZE	CREDIBILITY INTERVALS
	2,000	2.5
	1,500	2.9
	1,000	3.5
Ipsos does not publish data for base sizes (sample sizes) below 100.	750	4.1
	500	5.0
	350	6.0
	200	7.9
	100	11.2

ABOUT IPSOS

Ipsos ranks third in the global research industry. With a strong presence in 89 countries, Ipsos employs more than 16,000 people and has the ability to conduct research programs in more than 100 countries. Founded in France in 1975, Ipsos is controlled and managed by research professionals. They have built a solid Group around a multi-specialist positioning – Media and advertising research; Marketing research; Client and employee relationship management; Opinion & social research; Mobile, Online, Offline data collection and delivery.

Ipsos is listed on Eurolist – NYSE – Euronext. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).

GAME CHANGERS

At Ipsos we are passionately curious about people, markets, brands, and society. We deliver information and analysis that makes our complex world easier and faster to navigate and inspires our clients to make smarter decisions.

We believe that our work is important. Security, simplicity, speed, and substance applies to everything we do.

Through specialization, we offer our clients a unique depth of knowledge and expertise. Learning from different experiences gives us perspective and inspires us to boldly call things into question, to be creative.

By nurturing a culture of collaboration and curiosity, we attract the highest caliber of people who have the ability and desire to influence and shape the future.

“GAME CHANGERS” – our tagline – summarizes our ambition.
