5. Former Attorney General Jody Wilson-Raybould has testified to a House of Commons Committee that she faced a "sustained effort" and "veiled threats" to intervene in the SNC Lavalin case by various government officials, including the Prime Minister and his office. Prime Minister Justin Trudeau and his staff have maintained that there was no political pressure placed on the former Attorney General to intervene in the case by the Prime Minister, his staff, or government ministers. Who do you believe more?
