1. Dealing with the problem of youth homelessness is...

2. In your opinion, among the 35 million young adults between ages 18 and 25, how many do you believe experience homelessness in a given year?

2. In your opinion, among the 35 million young adults between ages 18 and 25, how many do you believe experience homelessness in a given year?

3. In your opinion, among the 21 million youth between ages 13 and 17, how many do you believe experience homelessness in a given year?

3. In your opinion, among the 21 million youth between ages 13 and 17, how many do you believe experience homelessness in a given year?

4\_1. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Being an unmarried, young parent.

4\_1. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Being an unmarried, young parent.

4\_2. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Being a racial or ethnic minority.

4\_2. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Being a racial or ethnic minority.

4\_3. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Having a high school degree or GED.

4\_3. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Having a high school degree or GED.

4\_4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Having a parent who works multiple jobs.

4\_4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Having a parent who works multiple jobs.

4\_5. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Identifying as lesbian, gay, bisexual, transgender, or queer (LGBTQ).

4\_5. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Identifying as lesbian, gay, bisexual, transgender, or queer (LGBTQ).

4\_6. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Spending time in the child welfare or juvenile justice systems.

4\_6. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Spending time in the child welfare or juvenile justice systems.

4\_7. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Knowing a young homeless person.

4\_7. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Knowing a young homeless person.

4\_8. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Being a woman

4\_8. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Being a woman

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - More likely Summary

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - More likely Summary

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - As likely Summary

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - As likely Summary

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Less likely Summary

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Less likely Summary

4. For each of the following characteristics, please indicate whether you think they make a young person more likely, less likely or as likely as their peers to experience homelessness. - Grid Table

5\_1. Do you believe the following are true or false statements? - Young people between the ages of 13 and 25 who sleep on a friend's couch are considered to be homeless.

5\_1. Do you believe the following are true or false statements? - Young people between the ages of 13 and 25 who sleep on a friend's couch are considered to be homeless.

5\_2. Do you believe the following are true or false statements? - Most young homeless people with substance abuse problems had a substance abuse problem before becoming homeless.

5\_2. Do you believe the following are true or false statements? - Most young homeless people with substance abuse problems had a substance abuse problem before becoming homeless.

5\_3. Do you believe the following are true or false statements? - Most young homeless people with mental health issues struggled with mental health issues before becoming homeless.

5\_3. Do you believe the following are true or false statements? - Most young homeless people with mental health issues struggled with mental health issues before becoming homeless.

5. Do you believe the following are true or false statements? - True Summary

5. Do you believe the following are true or false statements? - True Summary

5. Do you believe the following are true or false statements? - False Summary

5. Do you believe the following are true or false statements? - False Summary

5. Do you believe the following are true or false statements? - Grid Table

6\_1. Please read the following statements and indicate whether you agree or disagree. - The success of our young people has a direct impact on the success of our communities.

6\_1. Please read the following statements and indicate whether you agree or disagree. - The success of our young people has a direct impact on the success of our communities.

6\_2. Please read the following statements and indicate whether you agree or disagree. - My state government should prioritize reducing youth homelessness.

6\_2. Please read the following statements and indicate whether you agree or disagree. - My state government should prioritize reducing youth homelessness.

6\_3. Please read the following statements and indicate whether you agree or disagree. - The federal government should prioritize reducing youth homelessness.

6\_3. Please read the following statements and indicate whether you agree or disagree. - The federal government should prioritize reducing youth homelessness.

6\_4. Please read the following statements and indicate whether you agree or disagree. - My state government should prioritize funding for programs that help young homeless people finish high school and find a job.

6\_4. Please read the following statements and indicate whether you agree or disagree. - My state government should prioritize funding for programs that help young homeless people finish high school and find a job.

6\_5. Please read the following statements and indicate whether you agree or disagree. - The federal government should prioritize funding for programs that help young homeless people finish high school and find a job.

6\_5. Please read the following statements and indicate whether you agree or disagree. - The federal government should prioritize funding for programs that help young homeless people finish high school and find a job.

6\_6. Please read the following statements and indicate whether you agree or disagree. - Young people who can find food and shelter by couch surfing should still be allowed to use public services providing food and shelter.

6\_6. Please read the following statements and indicate whether you agree or disagree. - Young people who can find food and shelter by couch surfing should still be allowed to use public services providing food and shelter.

6. Please read the following statements and indicate whether you agree or disagree. - Top 2 Box Summary
