Looking to the future

As you may know, 62 years ago, on 25 March 1957, the six founding Member States of the European Union (Belgium, France, Italy, Luxembourg, the Netherlands and West Germany) signed the Treaty of Rome, establishing the European Economic Community, the legal basis of today's European Union which covers 28 countries in economic and political cooperation through a series of treaties, institutions, the single market, free movement of goods, services, people and money.

This survey was conducted in 28 countries around the world via the Ipsos online panel system, including ten countries within Europe (Belgium, France, Germany, Great Britain, Hungary, Italy, Poland, Serbia, Spain and Sweden). Throughout these slides, we refer to these countries as either the EU10 or the EU9, with the latter in recognition that Serbia is not a member of the European Union.

THE EUROPEAN UNION TODAY

GAME CHANGERS

FEWER EUROPEANS THINK THAT THINGS ACROSS THE EU ARE HEADING ON THE WRONG TRACK THAN IN 2017 – BUT STILL AROUND HALF ARE NEGATIVE

Generally speaking, would you say things across the European Union are heading in the right direction or are they off on the wrong track?

Average across EU9

% Are off on the wrong track

ACROSS EUROPE PEOPLE ON AVERAGE MORE SATISFIED WITH DEMOCRACY IN THE EU THAN IN THEIR OWN NATIONS; THEY FEEL LIKE THEY KNOW MORE ABOUT THE EU'S POTENTIAL ADVANTAGES THAN ITS DISADVANTAGES

On the whole, to what extent would you say you are satisfied or dissatisfied with the following?

**The way democracy works
in the European Union**

in your country**

Very satisfied Fairly satisfied Neither/nor Fairly dissatisfied Very dissatisfied

And thinking about [COUNTRY] membership of the EU, how much, if anything, would you say you know about it's potential...?

Advantages

Disadvantages

A great deal A fair amount Don't know Not very much Nothing

SWEDES AND GERMANS ARE HAPPIER WITH DEMOCRACY AT HOME, BELGIANS AND ITALIANS CRITICAL OF EACH EQUALLY, WHILE EVERYONE ELSE IS MORE DISSATISFIED WITH THEIR NATIONAL DEMOCRACY THAN THE EU'S

On the whole, to what extent would you say you are satisfied or dissatisfied with the following?

Advantages

Disadvantages

EUROPEANS ARE LESS NEGATIVE THAN THEY WERE IN 2017 AS TO WHETHER THE EUROPEAN UNION MADE THE EFFECTS OF THE ECONOMIC CRISIS BETTER OR WORSE – BUT ITALIANS, FRENCH AND BELGIANS STILL CRITICAL OVERALL

Please indicate which of these three statements comes closest to your own opinion

The leaders of the European Union don't care about people like me

2019 EUROPEAN PARLIAMENT ELECTIONS

GAME CHANGERS

FEW ARE VERY INTERESTED IN THE UPCOMING EUROPEAN ELECTIONS – BRITONS, BELGIANS AND THE FRENCH ARE AMONG THE LEAST INTERESTED

How interested, if at all, are you in the upcoming European elections?

AROUND ONE IN FOUR EXPECT ANTI-MOVEMENTS TO WIN IN THE NEXT EUROPEAN ELECTIONS – ALTHOUGH THIS RISES TO TWO IN FIVE IN ITALY

*And to what extent do you agree or disagree that: The next European elections in my country will be won by anti-European movements**

In Great Britain this question was asked as "The next European elections will be won by anti-European movements"

ONE IN THREE AGREE THAT IN THE EUROPEAN ELECTIONS IT'S TOO RISKY TO ELECT NEW POLITICAL PARTIES WITH RADICAL IDEAS FOR CHANGE

And to what extent do you agree or disagree that: In the European elections, it's too risky to elect political parties with radical ideas for change who haven't been in power before

BUT SUPPORT FOR TRADITIONAL PARTIES IS ALSO LOW WITH JUST 16% SAYING VOTERS SHOULD STICK WITH POLITICAL PARTIES WHO HAVE BEEN IN POWER BEFORE

*And to what extent do you agree or disagree that: At a time like the present, in the European elections we should stick with political parties who have been in power before**

In Great Britain this question was asked as “At a time like the present, in the European elections voters should stick with political parties who have been in power before”

ONLY AROUND HALF ON AVERAGE KNOW THAT MEMBERS OF THE EUROPEAN PARLIAMENT ARE DIRECTLY ELECTED – BELGIANS AND GERMANS ARE LESS CERTAIN

Please tell me whether you think the following statement is true or false:

The members of the European Parliament (MEPs) are directly elected by the citizens of each member state they represent

METHODOLOGY

- These are the findings of the Global Advisor Wave for the **2019 European Parliament Elections**, an Ipsos survey conducted between **March 22 – April 5 2019**.
- The survey instrument is conducted monthly in 28 countries around the world via the Ipsos Online Panel system. The countries reporting herein are Argentina, Australia, Belgium, Brazil, Canada, China, Chile, France, Great Britain, Germany, Hungary, India, Israel, Italy, Japan, Malaysia, Mexico, Peru, Poland, Russia, Saudi Arabia, Serbia, South Africa, South Korea, Spain, Sweden, Turkey and the United States of America.
- For the results of the survey presented herein, an international sample of **19, 531 adults** aged 18-74 in the US, Israel, Canada, China, Malaysia, South Africa and Turkey, and ages 16-74 in all other countries, were interviewed. Approximately 1000+ individuals participated on a country by country basis via the Ipsos Online Panel, with the exception of Argentina, Belgium, Chile, Hungary, India, Israel, Malaysia, Mexico, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Sweden and Turkey, where each have a sample approximately 500+.
- 15 of the 27 countries surveyed online generate nationally representative samples in their countries (Argentina, Australia, Belgium, Canada, France, Germany, Great Britain, Hungary, Italy, Japan, Poland, South Korea, Spain, Sweden, and United States).
- Brazil, China, Chile, India, Israel, Malaysia, Mexico, Peru, Russia, Saudi Arabia, South Africa and Turkey produce a national sample that is more urban & educated, and with higher incomes than their fellow citizens. We refer to these respondents as “Upper Deck Consumer Citizens”. They are not nationally representative of their country.
- Weighting was then employed to balance demographics and ensure that the sample's composition reflects that of the adult population according to the most recent country Census data, and to provide results intended to approximate the sample universe. A survey with an unweighted probability sample of this size and a 100% response rate would have an estimated margin of error of +/-3.1 percentage points for a sample of 1,000 and an estimated margin of error of +/- 4.5 percentage points 19 times out of 20 per country of what the results would have been had the entire population of adults in that country had been polled. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error.
