Technical Note

Ipsos MORI interviewed a representative sample of 1,140 adults 18+ across Great Britain. Interviews were conducted online: 8th – 11th November 2019. Data are weighted by region, social grade, age, working status and education to match the profile of the population.

Where percentages do not sum to 100 this may be due to computer rounding, the exclusion of “don’t know” categories, or multiple answers. An asterisk (*) denotes any value of less than half a per cent.

Questions are asked of the total sample of n=1,140 unless otherwise stated.
