Total Favorable	64
Total Unfavorable	18

Andrew Yang	Total
Very favorable	6
Somewhat favorable	26
Somewhat unfavorable	14
Very unfavorable	6
Heard of, no opinion	26
Never heard of	22
Skipped	1
Total Favorable	32
Total Unfavorable	19

4. Which of the following Democratic candidates for president are you considering voting for in the Democratic primary?

	Total
Joe Biden	54
Cory Booker	11
Pete Buttigieg	26
Tulsi Gabbard	4
Kamala Harris	18
Amy Klobuchar	9
Bernie Sanders	40
Tom Steyer	4
Elizabeth Warren	43
Andrew Yang	10
Someone else	4
Skipped	1

5. Which of the following issues is the most important in determining who you will vote for in the Democratic presidential primaries?

_	Total
Climate change	11
Education	5
Foreign affairs	3
Gun policy	5
Health care	20
Immigration	4
Wealth and income inequality	13
Social Security	6
Taxes	3
The economy and jobs	14
The Supreme Court	2
Racism, sexism, homophobia, transphobia and other types of discrimination	8
Something else	7
Skipped	1

6. Which of the following candidates do you believe is the best on your issue of [INSERT RESPONSE FROM Question 5]

Base: Chose an issue in prior question (Q5)	Total (N=3767)
Joe Biden	26
Cory Booker	2
Pete Buttigieg	8
Tulsi Gabbard	1
Kamala Harris	5
Amy Klobuchar	2
Bernie Sanders	24
Tom Steyer	1
Elizabeth Warren	21
Andrew Yang	3
Someone else	6
Skipped	2

Methodology

This 538 Debate/Ipsos Poll was conducted November 14th to 18th, 2019 using Ipsos' KnowledgePanel®. This poll is based on a nationally-representative probability sample of adults age 18 or older. Questions presented in this document were only asked of those who are likely to vote in the Democratic primary or caucus (n=3,786)

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households are randomly sampled and all persons in the selected households are invited to join and participate in the panel. Ipsos provides selected households that do not already have internet access with a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methods, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in both English and Spanish. The data were weighted to adjust for gender by age, race, education, Census region, metropolitan status, and household income. The demographic benchmarks came from the 2019 March supplement of the U.S. Census Bureau's Current Population Survey (CPS). The weighting categories were as follows:

- Gender (Male/Female) by Age (18–29, 30–44, 45–59, and 60+)
- Race/Hispanic Ethnicity (White/Non-Hispanic, Black/Non-Hispanic, Other or 2+ Races/Non-Hispanic, Hispanic)
- Education (Less than High School, High School graduate, Some College, Bachelor and beyond)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)

The margin of sampling error among those likely to vote in the Democratic primary or caucus is plus or minus 1.71 percentage points at the 95% confidence level. The margin of sampling error takes into account the design effect, which was 1.15. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

About Ipsos

lpsos is the world's third largest market research company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multispecialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees.
