

TOPLINE AND METHODOLOGY

Axios/Ipsos Poll – Wave 64

Conducted by Ipsos using KnowledgePanel®

A survey of the American general population (ages 18+)

Wave:
Wave 64

Interview dates:
March 11 – March 14, 2022

Interviews:
957

Margin of error for the total Wave 64 sample: +/-3.5 percentage points at the 95% confidence level

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

NOTE: * = less than 0.5%, - = no respondents

Annotated Questionnaire:

- How have the following changed in the last week, if at all?

Your physical health

	Improved		No	Gotten worse		Skipped	Total	Total

TOPLINE AND METHODOLOGY

Q93. To the best of your knowledge and understanding, are the following statements TRUE or FALSE or don't you know?

People can spread COVID-19 even if they don't have symptoms

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	86	3	10	1
October 22-25	86	4	9	1
August 13-16, 2021	85	3	11	1
October 16-19, 2020	93	6	NA	1

The COVID-19 vaccine is more deadly than the coronavirus itself

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	7	71	21	1
August 13-16	6	73	21	1
March 19-22, 2021	4	70	25	1

The COVID-19 vaccine carries a microchip to track the recipient

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	3	77	19	1

At this time, unvaccinated people and vaccinated people are equally likely to test positive for COVID-19

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	44	31	23	1
October 22-25, 2021	38	40	21	1

The number of people who have died of COVID-19 is far greater than the number who have experienced negative side effects from the COVID vaccine

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	47	16	35	1

Masks have been shown to limit the spread of COVID-19 from person to person

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	65	20	14	1
October 22-25	72	16	12	*
August 13-16, 2021	71	15	13	1
October 16-19, 2020	86	13	NA	1

In the U.S. right now, over 1,000 people are still dying every day from COVID-19

Wave:	True	False	Don't know	Skipped
March 11-14, 2022	33	15	51	1

TOPLINE AND METHODOLOGY

159. How much do you support or oppose the following?

Your state or local government requiring masks to be worn in all public places

TOPLINE AND METHODOLOGY

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households are randomly sampled from all available households in the U.S. All persons in selected households are invited to join and participate in KnowledgePanel. Ipsos provides selected households that do not already have internet access a tablet and internet connection at no cost to them. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methods, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households are randomly sampled from all available households in the U.S. All persons in selected households are invited to join and participate in KnowledgePanel. As a result of our recruitment and sampling methods, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in English and Spanish.^[1] The data were weighted to adjust for gender by age, race/ethnicity, education, Census region, metropolitan status, household income and party identification. The demographic benchmarks came from the 2021 March supplement of the U.S. Census Bureau's Current Population Survey (CPS). Party ID benchmarks are from recent ABC News/Washington Post telephone polls. The weighting categories were as follows:

- Gender (Male, Female) by Age (18–29, 30–44, 45–59, and 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Black Non-Hispanic, Other or 2+ Races Non-Hispanic, Hispanic)
- Education (Less than High School graduate, High School graduate, Some College, Bachelor's and beyond)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)
- Party ID (Democrat, Republican, Independent, Something else)

^[1] Wave 1 was conducted in English only.

TOPLINE AND METHODOLOGY

The margin of sampling error is plus or minus 3.5 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.21. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

About Ipsos

Ipsos is the world's third largest Insights and Analytics company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. We serve more than 5000 clients across the world with 75 business solutions.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
