(MAR2020)Q10b. As you may know the government has advised people with mild symptoms, such as having a high temperature or continuous cough, to self-isolate and stay at home for 7 days, regardless of whether they have been tested for the coronavirus. How many people, if any, with mild symptoms do you think will follow this advice and self-isolate themselves for seven days?

(MAR2020)Q10b. As you may know the government has advised people with mild symptoms, such as having a high temperature or continuous cough, to self-isolate and stay at home for 7 days, regardless of whether they have been tested for the coronavirus. How many people, if any, with mild symptoms do you think will follow this advice and self-isolate themselves for seven days?
