Q4. As you may know, the Prime Minister announced a range of measures on 23rd March, where people have been asked to remain at home except for a small number of exceptions (described by some as a 'lockdown'). To what extent, if at all, do you support or oppose these measures?

Attitudes on Covid-19

Adults aged 16-75 in the UK

Q16. Now think about how easy it is to spread coronavirus and seasonal flu - in other words, how contagious they each are. Among the UK population as a whole, do you think the coronavirus is more contagious, seasonal flu is more contagious, or do you think they are about the same?

All Adults aged 16-75 in the UK

All Adults aged 16-75 in the UK

	Q20. The Government has introduced measures known as 'social distancing' which people should take to reduce social interaction in order to reduce the transmission of coronavirus. From the following, which are official recommendations from the Government and which are not?									
	Avoid contact with someone who is displaying symptoms of coronavirus	Avoid non-essential use of public transport when possible	Work from home, wherever possible	Only those who work in 'essential services' should travel to work	Use telephone or online services to contact your GP or other essential services, only when necessary	Shop little and often to avoid long queues at supermarkets	Visit elderly relatives in their homes to check on them	Children from different households can play with or visit each other as they are not at risk	Exercising in groups is fine if it is outside	If you see people outside of your home, you should keep at least 2 metres apart

Q24. When, if at all, do you think the following will happen? - Summary						
All Adults aged 16-75 in the UK						
	Q24. When, if at all, do you think the following will happen?					
	We will be able to vaccinate the population against coronavirus in...	Schools will stay closed for...	Older people and those with underlying health issues will be asked not to leave home for...	general public will be required to work at home whenever possible and avoid non-essential travel for...	I expect 'normal' life to return to what it was before in...	I expect the economy to start growing again in...
