

EARTH DAY 2020

How does the world view climate change and Covid-19?

IPSOS GLOBAL ADVISOR

Summary: public support a green recovery

Seven in ten consider climate change as serious a crisis as Covid-19, and a similar proportion feel their government will be failing them if it doesn't act on climate change now. Two thirds globally support a green economic recovery from the crisis.

71% globally agree that in the long term, climate change is as serious a crisis as Covid-19.

68% globally say their government will be failing them if it doesn't act now to combat climate change.

65% of the public globally support a 'green' economic recovery from the Covid-19 crisis.

57% globally say they would be put off voting for a political party whose policies don't deal seriously with climate change.

Summary: public no more willing to change their climate behaviours than they were in 2014

A majority globally say they are likely to make changes this year, but the proportion saying this has not increased since a comparable Ipsos survey in 2014. The changes we are most likely to make are mainly lower effort and lower impact.

Covid-19 and climate change

How do the public view the two crises?

Seriousness of climate change in comparison to Covid19

Country data

Q. To what extent do you agree or disagree with the following:

In the long term, climate change is as serious a crisis as COVID-19 is

Base: 28,039 online adults aged 16-74: Fieldwork dates: Friday 17 to Sunday 19 April.

Support for a 'green' economic recovery from Covid-19

Country data

Q. To what extent do you agree or disagree with the following:

In the economic recovery after Covid-19, it's important that government actions prioritize climate change

Base: 28,039 online adults aged 16-74: Fieldwork dates: Friday 17 to Sunday 19 April.

■ Strongly agree/tend to agree ■ Tend to disagree/strongly disagree

Focus on economic recovery from COVID-19 first and foremost?

Country data

Q. To what extent do you agree or disagree with the following:

Government should focus on helping the economy to recover first and foremost, even if that means taking some actions that are bad for the environment

■ Strongly agree/tend to agree ■ Tend to disagree/strongly disagree

Base: 28,039 online adults aged 16-74: Fieldwork dates: Friday 17 to Sunday 19 April.

Views on whether Covid-19 will lead to increased environmental activism

Country data

Q. How likely or unlikely do you think the following is to occur as a result of the Coronavirus:

We will see more people fighting for changes to protect the environment

Base: 28,039 online adults aged 16-74: Fieldwork dates: Friday 17 to Sunday 19 April.

■ Very likely/Somewhat likely ■ Somewhat unlikely/Very unlikely

Willingness to seek out products which are healthier and better for the environment

Country data

Q. To what extent do you agree or disagree with the following regarding the long-term impact of the virus:

I will seek out products that are healthier and better for the environment

■ Strongly agree/tend to agree ■ Tend to disagree/strongly disagree

Base: 28,039 online adults aged 16-74: Fieldwork dates: Friday 17 to Sunday 19 April.

Environmental issues

Which environmental issues are most concerning to citizens?

Top environmental issues around the world

Global data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Global warming/ climate change

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Global warming/climate change

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Air pollution

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Air pollution

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Dealing with the amount of waste we generate

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Dealing with the amount of waste we generate

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

De-forestation

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

De-forestation

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Water pollution

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Water pollution

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Depletion of natural resources

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Depletion of natural resources

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Future energy sources and supplies

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Future energy sources and supplies

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Over-packaging of consumer goods

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Over-packaging of consumer goods

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Wildlife conservation

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Wildlife conservation

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Over population

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Over population

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Emissions

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Emissions

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Poor quality drinking water

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Poor quality drinking water

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Flooding

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Flooding

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Future food sources and supplies

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Future food sources and supplies

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Soil erosion

Country data

Q. In your view, what are the three most important environmental issues facing [COUNTRY] today? That is, the top environmental issues you feel should receive the greatest attention from your local leaders?

Soil erosion

Climate change

How willing are citizens to take personal action on climate change?

Desire for government action to combat climate change

Country data

Q. To what extent do you agree or disagree with the following statement?

'If [Country]'s government does not act now to combat climate change, it will be failing the people of [Country]'

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Role of climate change in shaping political party support

Country data

Q. To what extent do you agree or disagree with the following statement?

“If a political party’s policies don’t deal seriously with climate change, this would put me off voting for them”

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Strongly agree/tend to agree ■ Tend to disagree/strongly disagree

Willingness to take action on climate change - global data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Base: 20,590 online adults aged 16-74: Fieldwork dates : Friday, February 21 to Friday, March 6, 2020

Willingness to take action on climate change – 2020 vs. 2014

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Base: 10,504 online adults aged 16-74 across 12 countries: Fieldwork dates: Feb 21 to Mar 6, 2020, Sep 26 to Oct 10 2014

Willingness to take action on climate change – by country

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

% Certain to/very likely/fairly likely	World	Brazil	China	France	Germany	India	Italy	Japan	Poland	Russia	South Africa	Great Britain	USA
Avoiding products which have a lot of packaging	57%	56%	71%	46%	54%	60%	58%	49%	45%	55%	60%	59%	50%
Avoiding buying new goods, mending what you have or buying used products instead	52%	49%	59%	41%	52%	54%	53%	47%	41%	45%	53%	49%	51%
Saving energy at home, for example by installing insulation or switching off lights	50%	47%	69%	32%	48%	52%	48%	55%	37%	47%	52%	49%	51%
Recycling materials such as glass, paper and plastic	49%	52%	74%	27%	40%	59%	42%	57%	37%	65%	60%	41%	44%
Saving water at home, for example by having shorter showers or not watering your garden	49%	44%	66%	34%	47%	51%	51%	50%	41%	43%	51%	49%	46%
Walking, cycling or using public transport instead of driving a car	46%	45%	64%	32%	42%	54%	50%	44%	32%	42%	39%	43%	27%
Not flying, or replacing some flights with train or bus journeys	41%	45%	59%	31%	42%	53%	40%	35%	33%	34%	37%	31%	26%
Eating less meat, or replacing the meat in some meals with alternatives such as beans	41%	43%	58%	32%	39%	47%	45%	23%	38%	28%	38%	35%	27%
Eating fewer dairy products or replacing dairy products with alternatives such as soya milk	35%	44%	59%	23%	35%	54%	31%	24%	29%	19%	33%	24%	23%

Willingness to avoid products with a lot of packaging

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Avoiding products which have a lot of packaging

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Willingness to buy second hand and mend broken items

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Avoiding buying new goods, for example mending what you have or buying used products instead

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Willingness to save energy

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Saving energy at home, for example by installing insulation or switching off lights

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Willingness to recycle

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Recycling materials such as glass, paper and plastic

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Willingness to save water at home

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Saving water at home, for example by having shorter showers or not watering your garden

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain

Willingness to change daily travel

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Walking, cycling or using public transport instead of driving a car or motorbike

Base: 20,590 online adults aged 16-74 across 29 countries (Chatham House) :
Fieldwork dates : Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Willingness to avoid flying

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Not flying, or replacing some flights with train or bus journeys

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely

■ Fairly unlikely/very unlikely/certain not to

Willingness to eat less meat

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Eating less meat, or replacing the meat in some meals with alternatives such as beans

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Willingness to eat and drink fewer dairy products

Country data

Q. Thinking about things you might do in order to limit your own contribution to climate change, how likely or unlikely would you be to make the following changes within the next year?

Eating fewer dairy products or replacing dairy products with alternatives such as soya milk

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

■ Certain to/very likely/fairly likely ■ Fairly unlikely/very unlikely/certain not to

Understanding of climate change

Country data

Q. To what extent do you agree or disagree with the following statement?

'Human activities contribute to climate change'

■ Strongly agree/tend to agree

■ Tend to disagree/strongly disagree

Base: 20,590 online adults aged 16-74: Fieldwork dates: Friday, February 21 to Friday, March 6, 2020

Change in understanding of climate change since 2014

Q. To what extent do you agree or disagree with the following statement?

'Human activities contribute to climate change.'

Base: 10,504 online adults aged 16-74 across 12 countries: Fieldwork dates: Feb 21 to Mar 6, 2020, Sep 26 to Oct 10 2014

These are the findings of the *Global Advisor* wave 139 (GA 139) an Ipsos survey conducted between February 21 and March 6, 2020.

The survey instrument is conducted monthly in 29 countries around the world via the Ipsos Online Panel system. The countries reporting herein are Argentina, Australia, Belgium, Brazil, Canada, China, Chile, Colombia, France, Great Britain, Germany, Hungary, India, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Spain, Sweden, Turkey and the United States of America.

For the results of the survey presented herein, an international sample of 20,590 adults aged 18-74 in the US, South Africa, New Zealand, Turkey and Canada, and age 16-74 in all other countries, were interviewed. Approximately 1000+ individuals participated on a country by country basis via the Ipsos Online Panel with the exception of Argentina, Belgium, Chile, Colombia, Hungary, Malaysia, Mexico, Netherlands, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Sweden and Turkey, where each have a sample approximately 500+. The precision of Ipsos online polls are calculated using a credibility interval with a poll of 1,000 accurate to +/- 3.1 percentage points and of 500 accurate to +/- 4.5 percentage points. For more information on the Ipsos use of credibility intervals, please visit the Ipsos website.

17 of the 29 countries surveyed online generate nationally representative samples in their countries (Argentina, Australia, Belgium, Canada, France, Germany, Great Britain, Hungary, Italy, Japan, Netherlands, New Zealand, Poland, South Korea, Spain, Sweden and United States).

Brazil, China, Chile, Colombia, India, Malaysia, Mexico, Peru, Russia, Saudi Arabia, South Africa and Turkey produce a national sample that is more urban & educated, and with higher incomes than their fellow citizens. We refer to these respondents as “Upper Deck Consumer Citizens”. They are not nationally representative of their country.

This report contains findings from four sample sets:

1

Worldwide 29 country study

29 countries around the world via the Ipsos Online Panel system. Total base: 20,590 online adults aged 16-74 across 29 countries. Fieldwork dates: Friday, February 21 to Friday, March 6, 2020. The countries reporting herein are Argentina, Australia, Belgium, Brazil, Canada, China, Chile, Colombia, France, Great Britain, Germany, Hungary, India, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Spain, Sweden, Turkey and the United States of America.

2

12 country sub-set of the 2020 worldwide study

A 12 country sub-set of the 29 countries in the 2020 worldwide study. Total base: 10,504 online adults aged 16-74 across 12 countries. Fieldwork dates: Friday, February 21 to Friday, March 6, 2020. The countries reporting herein are Brazil, China, France, Great Britain, Germany, India, Italy, Japan, Poland, Russia, South Africa and the United States of America.

NOTE: The sample in 2020 includes only Great Britain not Northern Ireland.

3

12 country online study conducted in 2014, for comparison

A 12 country online study, conducted via the Ipsos Online Panel system between 26th September and 10th October 2014. Total base: 12,135 online adults aged 18-65 across 12 countries. The countries reporting herein are Brazil, China, France, United Kingdom, Germany, India, Italy, Japan, Poland, Russia, South Africa and the United States of America.

NOTE: The sample in 2014 includes the United Kingdom of Great Britain and Northern Ireland.

4

14-country study on Covid-19 and climate change

A 14 country online study, conducted via the Ipsos Online Panel system between 16th April and 19th April 2020. Total base: 28,039 online adults aged 16-74. The countries reporting herein are Australia, Brazil, China, Canada, France, Germany, Great Britain, India, Italy, Japan, Mexico, Russia, Spain and the United States of America.
