

PRESS RELEASE

Reuters/Ipsos Poll: Core Political - Coronavirus

About the Study

These are some of the findings of an Ipsos poll conducted between April 6-7, 2020 on behalf of Thomson Reuters. For this survey, a sample of 1,116 Americans age 18+ from the continental U.S., Alaska and Hawaii were interviewed online in English. The sample includes 532 Democrats, 417 Republicans and 93 independents. Weighting was then employed to balance demographics to ensure that the sample's composition reflects that of the adult population according to Census data and to provide results intended to approximate the sample universe. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll is accurate to within ± 3.3 percentage points, 19 times out of 20, had all Americans been polled. The credibility interval will be wider among subsets of the population. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error. The poll also has a credibility interval ± 4.8 percentage points for Democrats, ± 5.5 percentage points for Republicans, and ± 11.6 percentage points for independents.

For full results, please refer to the following annotated questionnaire.

About Ipsos

Ipsos is the world's third largest market research company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. We serve more than 5000 clients across the world with 75 business solutions.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
