

TOPLINE & METHODOLOGY

ABC News/Ipsos Poll

Conducted by Ipsos using the probability-based KnowledgePanel®
A survey of the American general population (ages 18+)
Interview dates: April 29 – April 30, 2020

Number of interviews, adults: 518

Margin of error for the total sample: +/- 4.9 percentage points at the 95% confidence level

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

NOTE: * = less than 0.5%, - = no respondents

Annotated Questionnaire:

1. Do you approve or disapprove of the way Donald Trump is handling the response to the coronavirus (COVID-19)?

	April 29-30	April 15-16	April 8-9	April 1-2	March 18-19	March 11-12
Approve	42	44	44	47	55	43
Disapprove	57	54	55	52	43	54
Skipped	1	2	1	1	1	3

2. How concerned are you that you or someone you know will be infected with the coronavirus?

	April 29-30	April 22-23	April 15-16	April 8-9	April 1-2	March 18-19	March 11-12
Very concerned	39	42	41	43	50	34	26
Somewhat concerned	42	40	40	43	39	45	40
Not so concerned	13	14	15	11	9	16	26
Not concerned at all	4	4	5	3	2	5	7
Skipped	1	-	-	-	1	*	1
Total concerned (Net)	82	82	80	86	89	79	66
Total not concerned (Net)	18	18	20	14	11	21	34

TOPLINE & METHODOLOGY

Q3. Do you have a child under 18 living at home?

	April 29-30
Yes	25
No	74
Skipped	1

Q4. If social distancing orders and restrictions on public activity were lifted tomorrow, how likely would you be to do each of the following? If it is something that you did not typically do before coronavirus, just say so.

Eat at a restaurant <i>Base: Typically eat at a restaurant</i>	April 29-30 (N=502)
Very likely	17
Somewhat likely	27
Not so likely	28
Not likely at all	27
Skipped	1
<i>Total likely (Net)</i>	<i>44</i>
<i>Total not likely (Net)</i>	<i>55</i>

Go to a bar <i>Base: Typically go to a bar</i>	April 29-30 (N=327)
Very likely	7
Somewhat likely	14
Not so likely	19
Not likely at all	59
Skipped	1
<i>Total likely (Net)</i>	<i>21</i>
<i>Total not likely (Net)</i>	<i>78</i>

Attend a sporting event in a large stadium <i>Base: Typically attend a sporting event in a large stadium</i>	April 29-30 (N=354)
Very likely	7
Somewhat likely	13
Not so likely	21
Not likely at all	57
Skipped	2
<i>Total likely (Net)</i>	<i>20</i>
<i>Total not likely (Net)</i>	<i>78</i>

TOPLINE & METHODOLOGY

Q4. If social distancing orders and restrictions on public activity were lifted tomorrow, how likely would you be to do each of the following? If it is something that you did not typically do before coronavirus, just say so.

Go to a gym or health club <i>Base: Typically go to a gym or health club</i>	April 29-30 (N=320)
Very likely	14
Somewhat likely	15
Not so likely	26
Not likely at all	44
Skipped	1
<i>Total likely (Net)</i>	29
<i>Total not likely (Net)</i>	70

Stay in a hotel <i>Base: Typically stay in a hotel</i>	April 29-30 (N=419)
Very likely	10
Somewhat likely	19
Not so likely	28
Not likely at all	41
Skipped	2
<i>Total likely (Net)</i>	30
<i>Total not likely (Net)</i>	69

Go to a movie theatre <i>Base: Typically go to a movie theatre</i>	April 29-30 (N=400)
Very likely	7
Somewhat likely	17
Not so likely	29
Not likely at all	45
Skipped	2
<i>Total likely (Net)</i>	24
<i>Total not likely (Net)</i>	74

TOPLINE & METHODOLOGY

Q4. If social distancing orders and restrictions on public activity were lifted tomorrow, how likely would you be to do each of the following? If it is something that you did not typically do before coronavirus, just say so.

Get a haircut at a barber or salon <i>Base: Typically get a haircut at a barber or salon</i>	April 29-30 (N=437)
Very likely	24
Somewhat likely	26
Not so likely	21
Not likely at all	28
Skipped	1
<i>Total likely (Net)</i>	<i>51</i>
<i>Total not likely (Net)</i>	<i>48</i>

Attend church <i>Base: Typically attend church</i>	April 29-30 (N=335)
Very likely	29
Somewhat likely	17
Not so likely	22
Not likely at all	31
Skipped	1
<i>Total likely (Net)</i>	<i>46</i>
<i>Total not likely (Net)</i>	<i>52</i>

Go bowling <i>Base: Typically go bowling</i>	April 29-30 (N=289)
Very likely	8
Somewhat likely	14
Not so likely	17
Not likely at all	60
Skipped	1
<i>Total likely (Net)</i>	<i>22</i>
<i>Total not likely (Net)</i>	<i>77</i>

TOPLINE & METHODOLOGY

Q4. If social distancing orders and restrictions on public activity were lifted tomorrow, how likely would you be to do each of the following? If it is something that you did not typically do before coronavirus, just say so.

Fly on an airplane <i>Base: Typically fly on an airplane</i>	April 29-30 (N=417)
Very likely	9
Somewhat likely	21
Not so likely	25
Not likely at all	44
Skipped	1
<i>Total likely (Net)</i>	29
<i>Total not likely (Net)</i>	69

Go to work <i>Base: Typically go to work</i>	April 29-30 (N=382)
Very likely	57
Somewhat likely	20
Not so likely	9
Not likely at all	13
Skipped	1
<i>Total likely (Net)</i>	77
<i>Total not likely (Net)</i>	22

Send your child to school <i>Base: Have a child under 18 living at home and typically send them to school</i>	April 29-30 (N=107)
Very likely	24
Somewhat likely	21
Not so likely	19
Not likely at all	36
Skipped	-
<i>Total likely (Net)</i>	45
<i>Total not likely (Net)</i>	55

TOPLINE & METHODOLOGY

About the Study

This ABC News/Ipsos Poll was conducted April 29 to April 30, 2020 by Ipsos using the probability-based KnowledgePanel®. This poll is based on a nationally representative probability sample of 518 general population adults age 18 or older.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households invited to join the panel are randomly selected from all available households in the U.S. Persons in the sampled households are invited to join and participate in the panel. Those selected who do not already have internet access are provided a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methodologies, samples from KnowledgePanel cover all households regardless of their phone or internet and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in both English and Spanish. The data were weighted to adjust for gender by age, race, education, Census region, metropolitan status, household income, and party identification. The demographic benchmarks came from the 2019 March supplement of the U.S. Census Bureau's Current Population Survey (CPS). Party ID benchmarks are from recent ABC News/Washington Post telephone polls. The weighting categories were as follows:

- Gender (Male/Female) by Age (18–29, 30–44, 45–59, and 60+)
- Race/Hispanic Ethnicity (White/Non-Hispanic, Black/Non-Hispanic, Other or 2+ Races/Non-Hispanic, Hispanic)
- Education (High School graduate or less, Some College, Bachelor and beyond)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)
- Party ID (Democrat, Republican, Independent, Something else)

The margin of sampling error is plus or minus 4.9 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.29. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

TOPLINE & METHODOLOGY

About Ipsos

Ipsos is the world's third largest market research company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. We serve more than 5000 clients across the world with 75 business solutions.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
