

TOPLINE AND METHODOLOGY

Axios /Ipsos Poll – Wave 9

Conducted by Ipsos using KnowledgePanel®
A survey of the American general population (ages 18+)

Wave:	Interview dates:	Interviews:
Wave 9	May 8 – May 11, 2020	980
Wave 8	May 1 – May 4, 2020	1,012
Wave 7	April 24 – April 27, 2020	1,021
Wave 6	April 17 – April 20, 2020	1,021
Wave 5	April 10 – April 13, 2020	1,098
Wave 4	April 3 – April 6, 2020	1,136
Wave 3	March 27 – March 30, 2020	1,355
Wave 2	March 20 – March 23, 2020	998
Wave 1	March 13- March 16, 2020	1,092

Margin of error for the total Wave 9 sample: +/-3.4 percentage points at the 95% confidence level

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

NOTE: * = less than 0.5%, - = no respondents

Annotated Questionnaire:

- How have the following changed in the last week, if at all?

Your physical health	Total								
	W1	W2	W3	W4	W5	W6	W7	W8	W9
Improved a lot	2	2	3	1	2	2	2	2	3
Improved a little	6	3	6	7	6	7	8	9	10

About the Study

This Axios/Ipsos Poll was conducted May 8th to May 11th, 2020 by Ipsos using our KnowledgePanel®. This poll is based on a nationally representative probability sample of 980 general population adults age 18 or older.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households are randomly sampled from all available households in the U.S. All persons in selected households are invited to join and participate in KnowledgePanel. Ipsos provides selected households that do not already have internet access a tablet and internet connection at no cost to them. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methods, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in English and Spanish.¹ The data were weighted to adjust for gender by age, race, education, Census region, metropolitan status and household income. The demographic weighting benchmarks are from the 2019 March supplement of the U.S. Census Bureau's Current Population Survey (CPS). The weighting categories were as follows:

- Gender (Male/Female) by Age (18–29, 30–44, 45–59, and 60+)
- Race/Hispanic Ethnicity (White/Non-Hispanic, Black/Non-Hispanic, Other or 2+ Races/Non-Hispanic, Hispanic)
- Education (Less than High School, High School graduate, Some College, Bachelor and beyond)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)

The margin of sampling error is plus or minus 3.4 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.16. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

¹ Wave 1 was conducted in English only.

TOPLINE AND METHODOLOGY

About Ipsos

Ipsos is the world's third largest market research company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. We serve more than 5000 clients across the world with 75 business solutions.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
