

America's Hidden Common Ground on the Coronavirus Crisis

Results from a Public Agenda/USA Today/Ipsos survey of Americans' views on reopening their communities

May 29, 2020

Americans see the virus as a personal threat:

According to a new Public Agenda/USA Today/Ipsos Hidden Common Ground Survey fielded May 22-26, 2020, fewer Americans – when compared to a [March 2020 survey](#) – view COVID-19 as a threat to the global economy, the United States, the stock market, their community and themselves personally.

Regardless of political affiliation, Americans see the pandemic as more of a threat to their physical health than to their mental health and financial well-being. Somewhat more Democrats (45%) see the virus as a threat to their physical health than Republicans (36%) or Independents (33%).

- A large majority of Americans continue to say COVID-19 is a threat to the global economy (72%) and the United States (65%).
- As economies across the United States reopen, perceived threat to the stock market from COVID-19 has decreased (58%, down 16 percentage points). This decrease is reflected across party lines: Independents (52%, down 21 percentage points), Democrats (61%, down 20 percentage points), and Republicans (55%, down 13 percentage points).

Americans are supporting each other:

More Americans report that they have donated money, supplies or time to community members in need (37% in May and 28% in March). Only 13% of Americans – nonetheless representing millions of people – have asked for help from people or organizations in their community. Around 7 in 10 Americans continue to report supporting local businesses since the coronavirus began (75% in May and 69% in March).

About half of Americans (48%) have publicly expressed support for health care workers while 16% have expressed their opinion about the pandemic through protests or contacting elected officials.

Nearly two thirds of Americans (62%) say there is more common ground on how to address the coronavirus among the American people than the news media and political leaders portray, including 72% of Republicans, 57% of Democrats and 57% of Independents.

Cautious optimism about how communities will fare:

Americans are cautiously optimistic about the effects of the virus on their communities. A plurality (48%) think their community will suffer in the short term but recover in the long term. More say their community will emerge stronger than ever (15%) than say it will never recover (6%). These findings are similar to those in the [March 2020 survey](#).

Americans' priorities may be shifting towards the economy and away from health:

Most Americans (62%) think the government's priority should be preventing the virus from spreading and keeping people from getting sick or dying – a drop of ten percentage points from March when 72% prioritized preventing the virus from spreading. The May survey finds that almost a third of Americans think the government's main priority should be keeping the economy strong in order to avoid a recession (29%, up eight percentage points from the [March 2020 survey](#)).

These changes are due to a dramatic 23-percentage-point decline in the share of Republicans who think the government's priority should be preventing the virus from spreading and keeping people from getting sick or dying (41% of Republicans in May vs. 64% in March) and a smaller 9-percentage-point decrease for Independents (61% in May vs. 70% in March). Democrats remain statistically unchanged (82% in May vs. 80% in March).

Nonetheless, three-quarters of Americans (77%) agree that the economy should be rebooted slowly and carefully to avoid spreading the virus. Majorities of Republicans (69%), Democrats (86%) and Independents (76%) support this approach.

Most Americans agree (45% strongly and 24% somewhat) that people who are protesting to reopen states are endangering the lives of others, but more Democrats (84%) and Independents (71%) agree than Republicans (53%).

Cross-partisan preferences for states taking the lead on reopening:

Across partisan lines, more Americans think that decisions about when and how to reopen economies should be primarily made by state governments, rather than the federal government or local governments.

- Two in five Americans (42%) think state governments should decide when and how to reopen economies (35% of Republicans, 50% of Democrats, and 45% of Independents), while 20% say local governments should decide.
- Only 16% of Americans say the federal government should take the lead on decisions about reopening, a stark indicator of lack of faith in the federal government. Even fewer think reopening should be up to individuals or businesses (11%).
- Half of Americans agree that their state's response has been less politicized than the federal government response.

Most Americans support several approaches to reopening, including cross-partisan support for wearing face coverings in public:

Only about one-third of Americans (34%) overall agree that restrictions and closures have been too severe. Just over half of Republicans (54%) say that restrictions have been too severe, but only 21% of Democrats and 32% of Independents agree.

Of the several ways in which states are responding to the coronavirus pandemic, self-quarantines, face coverings in public, and social distancing in stores garner the strongest support.

- Most Americans (88%) support people self-quarantining for 14 days if they are exposed to the coronavirus, with sweeping support among Republicans (85%), Democrats (90%), and Independents (87%).

- A majority of Americans (77%) support the idea that people should wear face coverings in public, including 67% of Republicans, 87% of Democrats and 75% of Independents.
- Seventy-six percent of Americans support the idea that stores, restaurants and other businesses in the service industry should reopen but require everyone to stay at least six feet apart. There are no differences by political affiliation in the strength of people's support for this measure.
- Two-thirds of Americans (62%) support the idea that schools should prepare for online and distance learning for the 2020-2021 school year. Parents are no more supportive of this idea than non-parents (61% and 64%, respectively). Fewer Republicans (50%) than Democrats (73%) or Independents (61%) support the idea of schools preparing for online learning in the next school year.
- A majority of Americans (61%) support the idea that elderly and other at-risk people should stay at home but restrictions on younger, healthier people should be reduced. This idea garners more support among Republicans (72%) than Democrats (54%) or Independents (56%).
- The idea for reopening that Democrats and Republicans respond to most differently is prohibiting gatherings of more than 10 people until there is a coronavirus treatment or vaccine. A majority of Americans (64%) support this idea. But there is a 29-percentage point difference in support between Republicans (49%) and Democrats (78%), with Independents falling in the middle (62%).

Few Americans support jail time or house arrest for violating social distancing rules:

- Half of Americans (49%) predict that most or almost all individuals and businesses in their community would follow social distancing measures if the economy in their community reopened with those measures in place.
- The most popular way of enforcing all the social distancing measures that this survey asked about is community members encouraging or pressuring others to comply.
- However, when it comes to prohibiting gatherings of more than 10 people until there is a vaccine, slightly more people think the police should issue a ticket or fine to those who do not comply (31%) than think that community members should encourage and pressure people to comply (28%).
- Across the board, Independents are most likely to support community members encouraging and pressuring people to comply as an enforcement method.
- More Republicans think that it should be up to individuals or organizations to comply with social distancing in stores (39%), wearing face coverings in public (38%), continued stay-at-home orders for the elderly and at-risk people with reductions for younger and healthier people (41%), and banned gatherings of more than 10 people (39%) when compared to the other enforcement measures.
- More Democrats think that community members should encourage and pressure people to comply with social distancing in stores (40%), 14-day quarantines for those exposed (34%), continued stay-at-home orders for elderly and at-risk people with reductions for younger and healthier people (40%) when compared to the other enforcement methods.
- More Democrats (36%) support police issuing a ticket or fine for those not wearing a face covering (compared to 19% of Republicans and 28% of Independents). More Democrats (40%) also support police issuing a ticket or fine for those gathering in groups of more than 10 (compared to 21% of Republicans and 25% of Independents).

PUBLIC AGENDA

These are the findings of an Ipsos poll conducted between May 22-26, 2020 on behalf of Public Agenda and USA Today. For this survey, a sample of 1,004 adults age 18+ from the continental U.S., Alaska, and Hawaii was interviewed online in English. The poll has a credibility interval of plus or minus 3.5 percentage points for all respondents.

For full results, please refer to the following questionnaire.

Full Annotated Questionnaire:

1. What level of threat do you think the coronavirus or COVID-19 poses to each of the following?

Total High Threat Summary

Yes	48%	47%	52%	46%
No	48%	50%	45%	47%
Don't know	4%	3%	3%	7%

h. Expressed your opinion about the pandemic by protesting or by contacting elected officials

	Total	Republicans	Democrats	Independents
Yes	16%	13%	22%	6%
No	80%	85%	74%	88%
Don't know	4%	2%	4%	5%

5. How do you think your community will fare after the coronavirus crisis is over? (Select one)

	Total	March 27-30	Republicans	Democrats	Independents
My community will <u>never</u> fully recover	6%	3%	5%	7%	6%
My community will suffer in the <u>short-term</u> , but will recover in the long-term	48%	53%	48%	51%	45%
My community will only suffer <u>a little</u>	19%	16%	18%	21%	18%
My community will emerge <u>stronger</u> than ever	15%	18%	21%	9%	18%
Don't know/Not sure	12%	11%	8%	12%	12%

6. What do you think should be the main priority of the U.S. government during the coronavirus crisis? (Select one)

	Total	March 27-30	Republicans	Democrats	Independents
Doing everything possible <u>to prevent the coronavirus from spreading</u> and keep people from getting sick and dying	62%	72%	41%	82%	61%
Doing everything possible <u>to keep the economy strong</u> and avoid a recession	29%	21%	50%	14%	27%
Don't know	9%	7%	9%	4%	11%

7. Thinking about the coronavirus crisis, how much do you agree or disagree with each of the following statements? (Select one for each)

Total Agree Summary

	Total	March 27-30	Republicans	Democrats	Independents
We should reboot the economy slowly and carefully to avoid spreading the virus and endangering lives	77%	83%	69%	86%	76%
People protesting to reopen states are endangering the lives of others	69%	-	53%	84%	71%
There is more common ground on how to address the coronavirus among the American people than the news media and political leaders portray	62%	-	72%	57%	57%
The coronavirus pandemic is bringing out the worst in Americans	61%	-	62%	66%	48%
My state's response has been less politicized than the federal government response	50%	-	45%	58%	48%
The coronavirus pandemic is bringing out the best in Americans	46%	-	57%	40%	43%
Restrictions and closures have been too severe	34%	-	54%	21%	32%

- a. We should reboot the economy slowly and carefully to avoid spreading the virus and endangering lives

	Total	March 27-30	Republicans	Democrats	Independents
Strongly agree	45%	44%	32%	59%	37%
Somewhat agree	32%	40%	37%	26%	38%
Somewhat disagree	10%	7%	17%	6%	11%
Strongly disagree	7%	4%	10%	5%	4%
Don't know	6%	6%	5%	4%	9%
<i>Agree (Net)</i>	<i>77%</i>	<i>83%</i>	<i>69%</i>	<i>86%</i>	<i>76%</i>
<i>Disagree (Net)</i>	<i>17%</i>	<i>11%</i>	<i>27%</i>	<i>10%</i>	<i>15%</i>

b. Restrictions and closures have been too severe

	Total	Republicans	Democrats	Independents
Strongly agree	15%	24%	8%	14%
Somewhat agree	20%	30%	13%	17%
Somewhat disagree	26%	23%	28%	34%
Strongly disagree	33%	18%	46%	29%
Don't know	6%	5%	5%	6%
<i>Agree (Net)</i>	<i>34%</i>	<i>54%</i>	<i>21%</i>	<i>32%</i>
<i>Disagree (Net)</i>	<i>59%</i>	<i>42%</i>	<i>74%</i>	<i>62%</i>

c. People protesting to reopen states are endangering the lives of others

	Total	Republicans	Democrats	Independents
Strongly agree	45%	26%	62%	52%
Somewhat agree	24%	27%	22%	19%
Somewhat disagree	13%	20%	7%	13%
Strongly disagree	11%	20%	5%	9%
Don't know	7%	7%	4%	7%
<i>Agree (Net)</i>	<i>69%</i>	<i>53%</i>	<i>84%</i>	<i>71%</i>
<i>Disagree (Net)</i>	<i>24%</i>	<i>40%</i>	<i>11%</i>	<i>22%</i>

d. My state's response has been less politicized than the federal government response

	Total	Republicans	Democrats	Independents
Strongly agree	19%	14%	25%	12%
Somewhat agree	32%	31%	33%	36%
Somewhat disagree	19%	21%	17%	23%
Strongly disagree	17%	22%	13%	14%
Don't know	14%	12%	12%	15%

Strongly disagree	8%	10%	6%	13%
Don't know	6%	2%	7%	5%
<i>Agree (Net)</i>	<i>61%</i>	<i>62%</i>	<i>66%</i>	<i>48%</i>
<i>Disagree (Net)</i>	<i>33%</i>	<i>36%</i>	<i>27%</i>	<i>47%</i>

8. Should decisions about when and how to reopen primarily by the federal government, state governments, local governments, or by individuals and businesses?

	Total	Republicans	Democrats	Independents
State governments	42%	35%	50%	45%
Local governments	20%	22%	18%	20%
Federal government	16%	17%	17%	8%
Individuals and businesses	11%	17%	5%	13%
Don't know	12%	10%	9%	14%

9. Here are several ways in which some states are responding to the coronavirus pandemic. Thinking about your state, please indicate how you feel about each of the following measures. (Select one for each.)

Total Would Support Summary

	Total	Republicans	Democrats	Independents
People should self-quarantine for 14 days if they are exposed to the coronavirus	88%	85%	90%	87%
People should wear face coverings in public (sidewalks, stores, beaches, malls, restaurants, etc.)	77%	67%	87%	75%
Stores, restaurants and other businesses in the service industry should reopen, but require everyone to stay at least six feet apart	76%	80%	74%	78%
Gatherings of more than 10 people should be prohibited until there is a coronavirus treatment or vaccine	64%	49%	78%	62%
Schools should prepare for online and distance learning for the 2020-2021 school year	62%	50%	73%	61%
Elderly and other at-risk people should stay at home but restrictions on younger, healthier people should be reduced	61%	72%	54%	56%

- a. Stores, restaurants and other businesses in the service industry should reopen, but require everyone to stay at least six feet apart

	Total	Republicans	Democrats	Independents
It sounds <u>very good</u> to me, and I would support it	32%	35%	31%	30%
It sounds <u>somewhat good</u> to me, and I would probably support it	44%	45%	43%	48%
It <u>does not</u> sound very good to me, and I would probably not support it	13%	10%	16%	9%
It <u>does not</u> sound good at all, and I would not support it	6%	6%	6%	3%
Don't know/Don't have enough information to say	5%	3%	4%	10%
<i>Would support (Net)</i>	<i>76%</i>	<i>80%</i>	<i>74%</i>	<i>78%</i>
<i>Would not support (Net)</i>	<i>19%</i>	<i>16%</i>	<i>22%</i>	<i>11%</i>

- b. Schools should prepare for online and distance learning for the 2020-2021 school year

	Total	Republicans	Democrats	Independents
It sounds <u>very good</u> to me, and I would support it	32%	25%	39%	29%
It sounds <u>somewhat good</u> to me, and I would probably support it	30%	25%	34%	32%
It <u>does not</u> sound very good to me, and I would probably not support it	19%	23%	17%	17%

Jail individuals or business owner if they do not comply	4%	3%	5%	3%
Don't know	9%	8%	7%	10%

12. In general, do you think America deals with disagreements in a mostly constructive or mostly destructive way? (Select one.)'

	Total	Republicans	Democrats	Independents
Mostly constructive	4%	6%	3%	3%
More constructive than destructive	15%	20%	13%	14%
Neither constructive nor destructive	18%	19%	15%	27%
More destructive than constructive	39%	34%	45%	37%
Mostly destructive	14%	11%	17%	12%
Don't know	10%	10%	7%	8%
<i>Constructive (Net)</i>	<i>20%</i>	<i>26%</i>	<i>16%</i>	<i>17%</i>
<i>Destructive (Net)</i>	<i>53%</i>	<i>46%</i>	<i>62%</i>	<i>48%</i>

About the Study

These are some of the findings of an Ipsos poll conducted between May 22-26, 2020, on behalf of Public Agenda and USA Today. For this survey, a sample of roughly 1,004 adults age 18+ from the continental U.S., Alaska, and Hawaii was interviewed online in English. The sample includes 379 Republicans, 445 Democrats, and 107 Independents. The first wave was conducted between March 27-30, 2020, among roughly 1,002 American adults.

The sample for this study was randomly drawn from Ipsos' online panel (see link below for more info on "Access Panels and Recruitment"), partner online panel sources, and "river" sampling (see link below for more info on the Ipsos "Ampario Overview" sample method) and does not rely on a population frame in the traditional sense. Ipsos uses fixed sample targets, unique to each study, in drawing a sample. After a sample has been obtained from the Ipsos panel, Ipsos calibrates respondent characteristics to be representative of the U.S. Population using standard procedures such as raking-ratio adjustments. The source of these population targets is U.S. Census 2016 American Community Survey data. The sample drawn for this study reflects fixed sample targets on demographics. Posthoc weights were made to the population characteristics on gender, age, race/ethnicity, region, and education.

Statistical margins of error are not applicable to online non-probability polls. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error and measurement error. Where figures do not sum to 100, this is due to the effects of rounding. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll has a credibility interval of plus or minus 3.5 percentage points for all respondents. Ipsos calculates a design effect (DEFF) for each study based on the variation of the weights, following the formula of Kish (1965). This study had a credibility interval adjusted for design effect of the following ($n=1,004$, $DEFF=1.5$, adjusted Confidence Interval= ± 5.0 percentage points).

The poll has a credibility interval of plus or minus 5.7 percentage points for Republicans, plus or minus 5.3 percentage points for Democrats, and plus or minus 10.8 percentage points for Independents. Additionally, the first wave has a credibility interval of plus or minus 3.5 percentage points.

About the Hidden Common Ground Initiative

The Hidden Common Ground Initiative focuses on underappreciated and under-leveraged areas of agreement among the public on solutions to tough public problems, like health care and criminal justice. HCG 2020 is the election-year iteration of the initiative, spearheaded by Public Agenda and USA Today, with The National Issues Forums (NIF), Ipsos, and the America Amplified: Election 2020 Public Media Collaborative. It applies the HCG mission to an array of election year issues via nonpartisan research, national and local journalism, community-based and online deliberative forums, and "Strange Bedfellows" storytelling and events. Hidden Common Ground is supported by a diverse group of foundations, including the [Carnegie Corporation of New York](#), the [John S. and James L. Knight Foundation](#), the [Charles Koch Foundation](#), and the [Rockefeller Brothers Fund](#), as well as through the generosity of individual donors. In addition, the [Kettering Foundation](#) is a research partner of the initiative.
