Global attitudes towards refugees

June 2020

© Ipsos | Attitudes to Refugees | June 2020

Seven in ten globally agree that people should have the right to take refuge in other countries while 45% believe they will successfully integrate

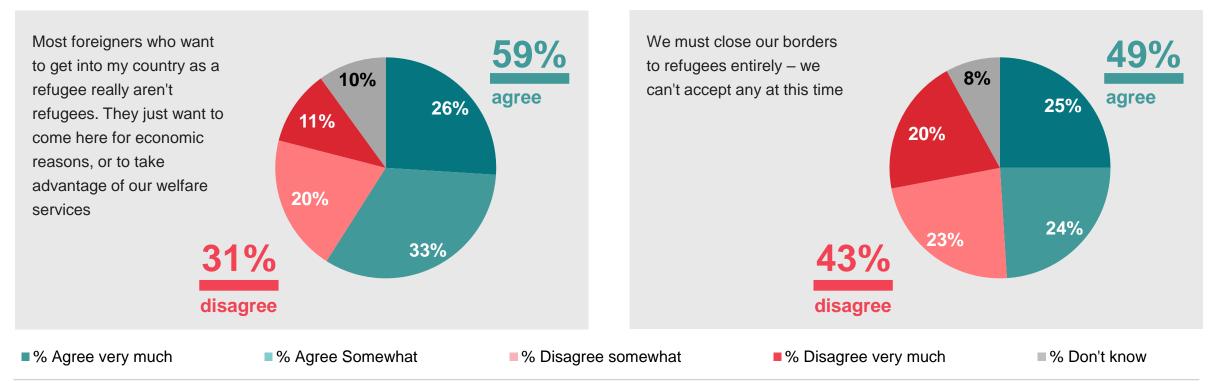

2 Thinking about your country, do you agree or disagree with the following statements?

Base: 17,997 online adults aged 16-74, 22<sup>nd</sup> May – June 5<sup>th</sup> 2020

## Six in ten think that refugees that come to their country are not genuine and half believe their borders should be closed entirely to refugees

**Q** Thinking about your country, do you agree or disagree with the following statements?

Base: 17,997 online adults aged 16-74, 22<sup>nd</sup> May – June 5<sup>th</sup> 2020

# While there has been a rise in support for the principle of people seeking refuge and confidence that refugees will integrate of refugees, half now think borders must be closed entirely

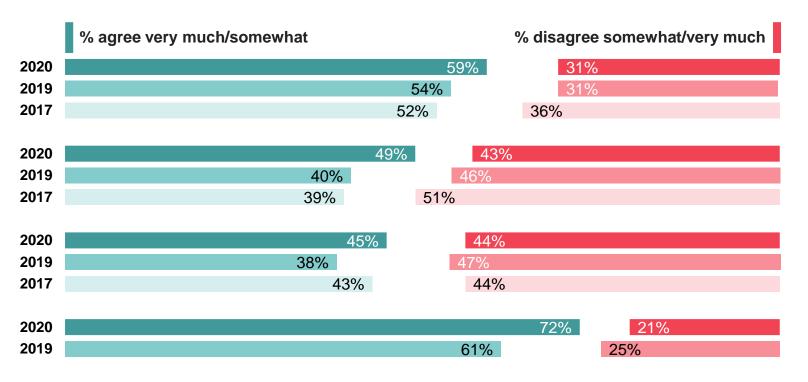

Thinking about your country, do you agree or disagree with the following statements?

Most foreigners who want to get into my country as a refugee really aren't refugees. They just want to come here for economic reasons, or to take advantage of our welfare services

We must close our borders to refugees entirely – we can't accept any at this time

Most refugees who come to [COUNTRY] will successfully integrate into their new society

People should be able to take refuge in other countries, including in [COUNTRY], to escape from war or persecution

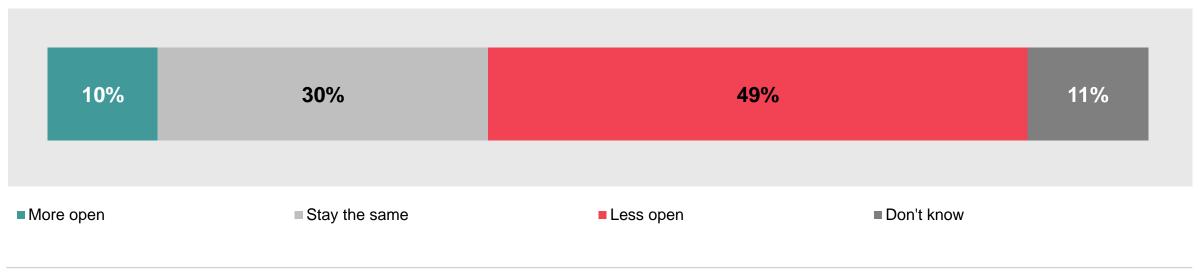

Base: 17,997 online adults aged 16-74, 22nd May – June 5th 2020; 18,027 online adults aged 16-74, 19th April – 3rd May 2019

### Half globally want their country to be less open to accepting refugees compared to before the COVID-19 outbreak

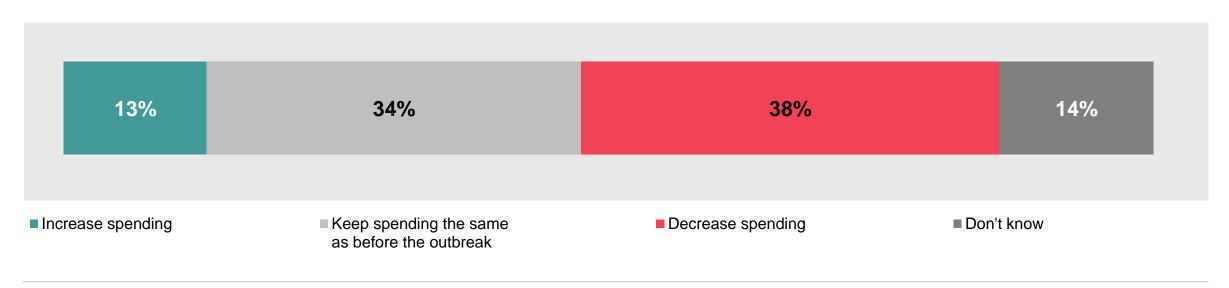

Q Do you think that [COUNTRY] should be more open or less open to accepting refugees or do you think it should remain the same as it was before the coronavirus/COVID-19 outbreak?

# Two in five want their country to decrease the amount it spends supporting refugees due to COVID-19, however, a third think the amount should stay the same and one in ten want it to increase

Q Do you think the government in [COUNTRY] should increase or decrease the amount it spends on support for refugees around the world due to coronavirus/COVID-19 or do you think it should keep spending the same as before the outbreak?

#### Thinking about your country, do you agree or disagree with the following statements?

People should be able to take refuge in other countries, including in [COUNTRY], to escape from war or persecution

Globally, the majority agree that people should be able to take refuge in other countries, including their own, to escape war or persecution.

#### Thinking about your country, do you agree or disagree with the following statements?

Most foreigners who want to get into my country as a refugee really aren't refugees. They just want to come here for economic reasons, or to take advantage of our welfare services

Globally, just over half do not believe that refugees are coming to their country for refuge, with those most sceptical being in Malaysia, India, Russia, and Turkey.

#### Q. Thinking about your country, do you agree or disagree with the following statements?

Most refugees who come to [COUNTRY] will successfully integrate into their new society

Globally, people are split as to whether they think refugees will successfully integrate into their country. Those in Saudi Arabia, India and Argentina are most likely to think they will, whereas those in South Korea, Hungary and Belgium are least likely to agree

	% agree very much/somewhat	% disagree somewhat/very much	Agree change	since 2019

This survey is an international sample of 17,997, adults aged 18-64 in the US, South Africa, Turkey and Canada, and age 16-64 in all other countries, were interviewed. The Fieldwork was conducted from 22<sup>nd</sup> May – June 5<sup>th</sup> 2020. Approximately 1000+ individuals participated on a country by country basis via the Ipsos Online Panel with the exception of Argentina, Belgium, Chile, Hungary, India, Malaysia, Mexico, Netherlands, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Sweden and Turkey, where each have a sample approximately 500+.

15 of the 26 countries surveyed online generate nationally representative samples in their countries (Argentina, Australia, Belgium, Canada, France, Germany, Great Britain, Hungary, Italy, Japan, Netherlands, Poland, South Korea, Spain, Sweden, and United States).

Brazil, China, Chile, Malaysia, Mexico, Peru, Russia, Serbia, South Africa and Turkey produce a national sample that is more urban & educated, and with higher incomes than their fellow citizens. We refer to these respondents as "Upper Deck Consumer Citizens". They are not nationally representative of their country.

Where results do not sum to 100 or the 'difference' appears to be+-1 more/less than the actual, this may be due to rounding, multiple responses or the exclusion of don't knows or not stated responses. The precision of Ipsos online polls are calculated using a credibility interval with a poll of 1,000 accurate to +/- 3.1 percentage points and of 500 accurate to +/- 4.5 percentage points. For more information on the Ipsos use of credibility intervals, please visit the Ipsos website.

Data are weighted to match the profile of the population.

### **ABOUT IPSOS**

Ipsos is the third largest market research company in the world, present in 90 markets and employing more than 18,000 people.

Our research professionals, analysts and scientists have built unique multi-specialist capabilities that provide powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. Our 75 business solutions are based on primary data coming from our surveys, social media monitoring, and qualitative or observational techniques.

"Game Changers" – our tagline – summarises our ambition to help our 5,000 clients to navigate more easily our deeply changing world.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).

ISIN code FR0000073298, Reuters ISOS.PA, Bloomberg IPS:FP www.ipsos.com

### **GAME CHANGERS**

In our world of rapid change, the need for reliable information to make confident decisions has never been greater.

At Ipsos we believe our clients need more than a data supplier, they need a partner who can produce accurate and relevant information and turn it into actionable truth.

This is why our passionately curious experts not only provide the most precise measurement, but shape it to provide True Understanding of Society, Markets and People.

To do this we use the best of science, technology and know-how and apply the principles of security, simplicity, speed and substance to everything we do.

So that our clients can act faster, smarter and bolder. Ultimately, success comes down to a simple truth: **You act better when you are sure.**
