

A graphic with the word "WORLD" in large white letters on a dark background. The letter "O" is replaced by a circular collage of various icons representing global issues like war, poverty, and environment, with a large question mark in the center.

GAME CHANGERS

WORLD SUMMARY: JUNE 2020

The majority (58%) of people around the world think things in their country are on the wrong track.

Coronavirus (COVID-19) currently occupies the top spot for global concern with 47% saying this.

Generally speaking, would you say things in this country are heading in the right direction, or are they off on the wrong track?

**RIGHT DIRECTION/
WRONG TRACK**

METHODOLOGY

METHODOLOGY

The survey is conducted monthly in 27 countries around the world via the Ipsos Online Panel. The countries included are Argentina, Australia, Belgium, Brazil, Canada, Chile, France, Great Britain, Germany, Hungary, India, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Spain, Sweden, Turkey and the United States of America.

For the results of the survey presented herein, an international sample of 18,497 adults aged 18-74 in the US, South Africa, Turkey, Israel and Canada, and age 16-74 in all other countries, were interviewed between May 22nd 2020 and June 5th 2020. Approximately 1000+ individuals participated on a country by country basis via the Ipsos Online Panel.

The precision of Ipsos online polls are calculated using a credibility interval with a poll of 1,000 accurate to +/- 3.1 percentage points and of 500 accurate to +/- 4.5 percentage points. For more information on the Ipsos use of credibility intervals, please visit the Ipsos website.

Weighting has been employed to balance demographics and ensure that the sample's composition reflects that of the adult population according to the most recent country census data.

A survey with an unweighted probability sample of this size would have an estimated margin of error of +/- 3.1 percentage points for a sample of 1,000 and an estimated margin of error of +/- 4.5 percentage points for a 500 sample 19 times out of 20.

In 17 of the 27 countries surveyed internet penetration is sufficiently high to think of the samples as representative of the wider population within the age ranges covered: Argentina, Australia, Belgium, Canada, France, Germany, Hungary, Israel, Italy, Japan, Netherlands, Poland, South Korea, Spain, Sweden, Great Britain and United States.

Brazil, Chile, India, Malaysia, Mexico, Russia, Peru, Saudi Arabia, South Africa and Turkey have lower levels of internet penetration and so these samples should not be considered nationally representative, and instead be considered to represent a more affluent, connected population. These are still a vital social group to understand in these countries, representing an important and emerging middle class.

ABOUT IPSOS

Ipsos is the third largest market research company in the world, present in 90 markets and employing more than 18,000 people.

Our research professionals, analysts and scientists have built unique multi-specialist capabilities that provide powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. Our 75 business solutions are based on primary data coming from our surveys, social media monitoring, and qualitative or observational techniques.

“Game Changers” – our tagline – summarises our ambition to help our 5,000 clients to navigate more easily our deeply changing world.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).

GAME CHANGERS

In our world of rapid change, the need for reliable information to make confident decisions has never been greater.

At Ipsos we believe our clients need more than a data supplier, they need a partner who can produce accurate and relevant information and turn it into actionable truth.

This is why our passionately curious experts not only provide the most precise measurement, but shape it to provide True Understanding of Society, Markets and People.

To do this we use the best of science, technology and know-how and apply the principles of security, simplicity, speed and substance to everything we do.

So that our clients can act faster, smarter and bolder.

Ultimately, success comes down to a simple truth:

You act better when you are sure.
