## Technical note

Ipsos MORI Scotland interviewed a representative sample of 1,037 adults aged 16+ across Scotland. Interviews were conducted by telephone: 10-15 November 2020. Data are weighted by age, sex, region, working status, tenure and education to match the profile of the population.

Where percentages do not sum to 100 this may be due to computer rounding, the exclusion of “don’t know” categories, or multiple answers. An asterisk (\*) denotes any value of less than half a per cent.

Questions are asked of the total sample of  $n = 1,037$  unless otherwise stated.
