

Ipsos MORI Coronavirus polling

January 2021

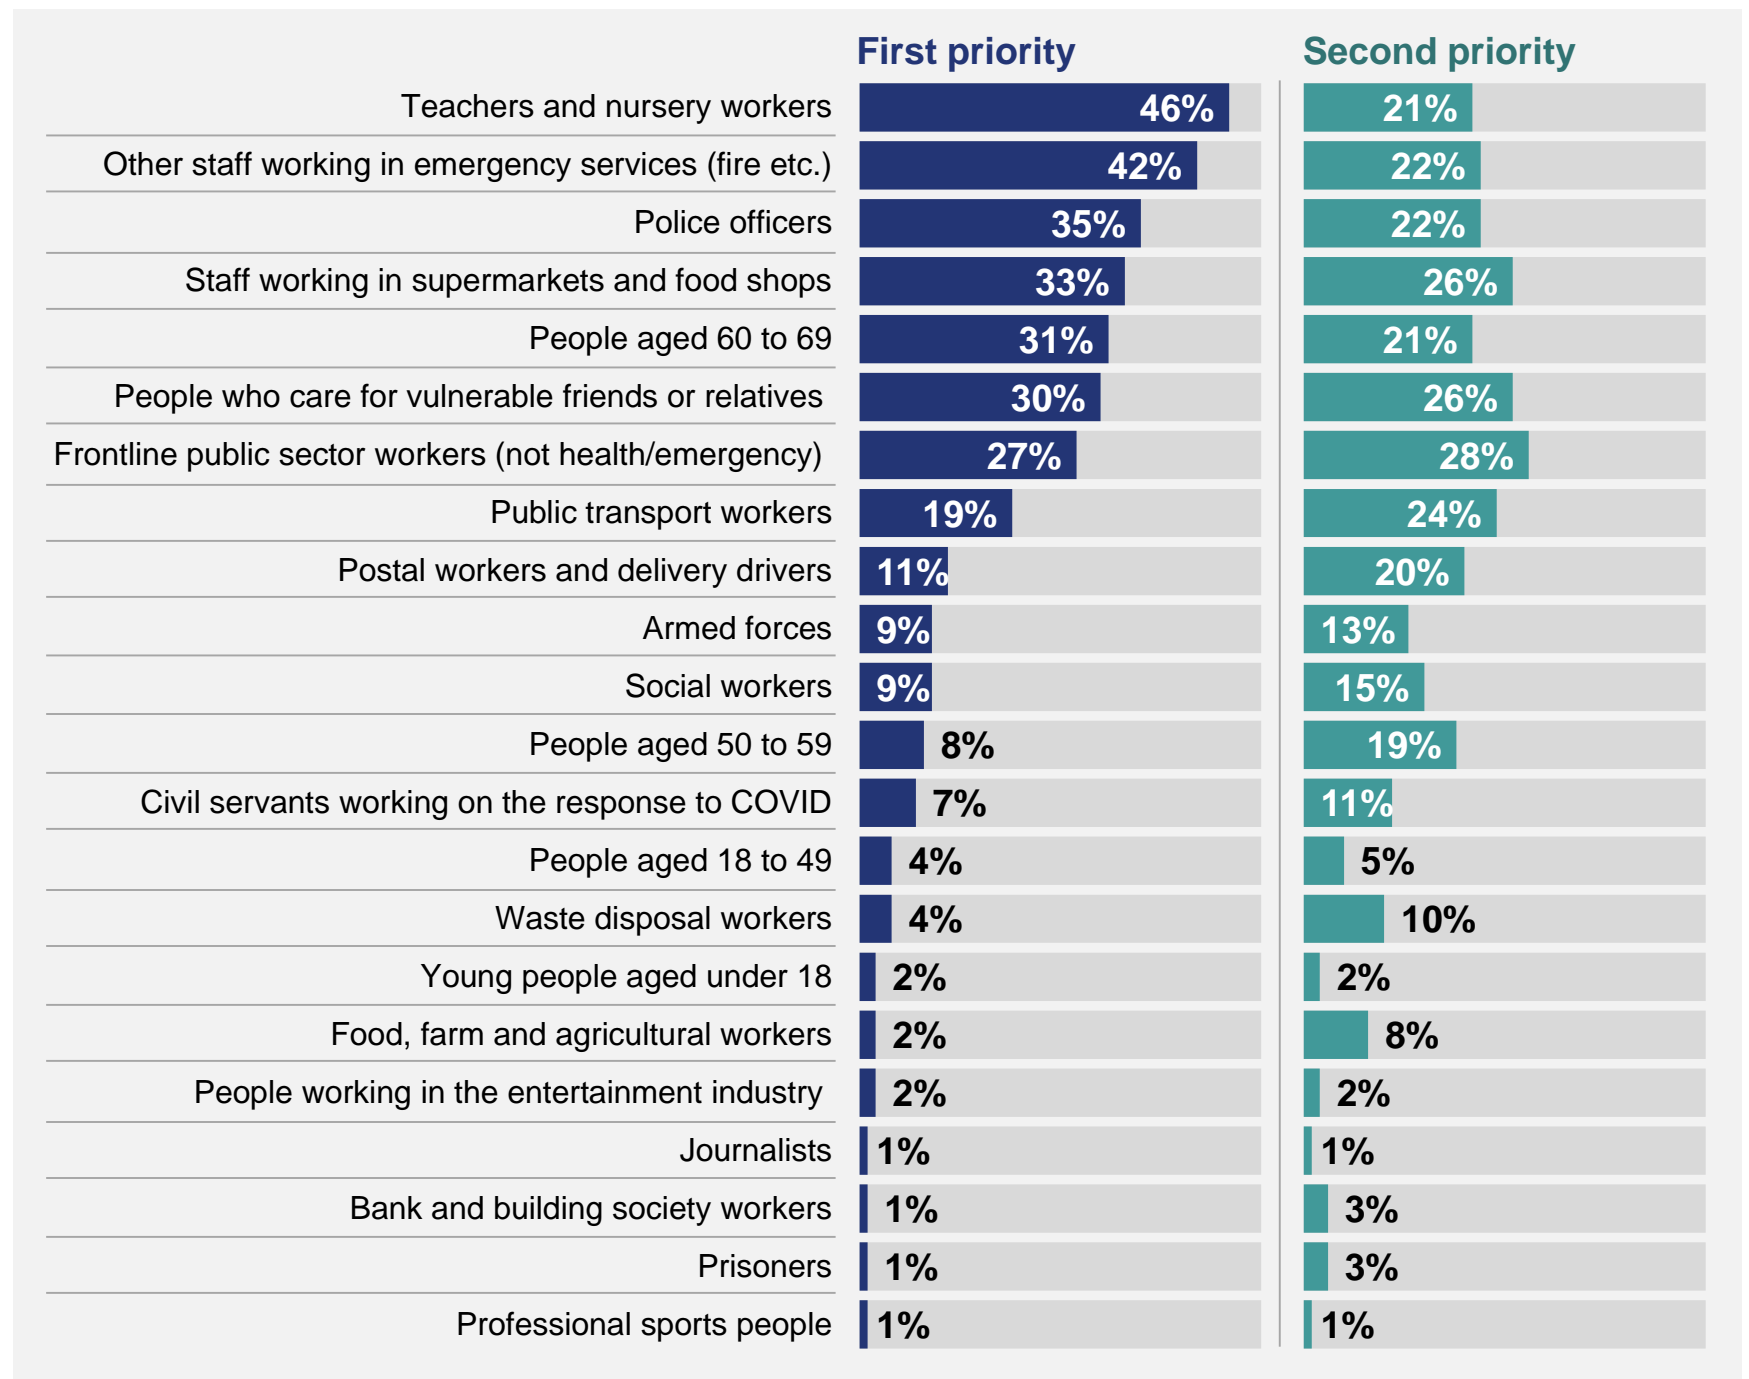

Which groups should be the highest priority to be vaccinated?

As you may know, the Government has prioritised the following groups to receive the COVID vaccination in the first stages of the UK's COVID vaccination roll-out:

- Staff working in care homes for older adults
- Frontline health and social care workers e.g. NHS staff
- People aged over 70
- People who are under 70 but clinically extremely vulnerable

Which three or four, if any, of the following groups do you think should be the next highest priority to receive the COVID-19 vaccination? And which three or four of the remaining groups, if any, do you think should be the next priority to receive the COVID-19 vaccination?

Base: 1,083 Online British adults 18+, 22-25 January 2021.
