

Ipsos MORI Issues Index

January 2021

Technical Note

This month's Issues Index has been conducted over the phone, a methodology change which has been in place since the April 2020 wave. The Coronavirus pandemic means face-to-face fieldwork is currently not an option for public opinion polling. Mode effects should be kept in mind when comparing the new data points with previous months.

Ipsos MORI interviewed a representative sample of 1,032 adults aged 18+ across Great Britain. Interviews were conducted by telephone between 22 and 27 January 2021. The data is weighted to match the profile of the population.

Where percentages do not sum to 100, this may be due to computer rounding, the exclusion of "don't know" categories, or multiple answers. An asterisk (*) denotes any value of less than half a per cent, but more than zero.
