Q: Are you planning to spend an overnight vacation away from your home in any of the following countries in the next three months? Select all that apply.
5 KEY LEARNINGS

1. **Let’s not write off 2021.** There is a high latent demand, while people wait for vaccination or for the health situation to improve. 2021 tourism moves extends beyond the summer timeframe and there is a lot of intention to travel outside of the season.

2. **Facilitate tourist activities** (PCRs and quarantines) for outbound travel and when returning to the country of origin.

3. **Fight against uncertainty** through clear messaging and try to ease feelings of insecurity, i.e. when flying.

4. **Micro-segmentation:** It is important to communicate clearly and frequently to those with the highest intention to travel.

5. Highlight clearly the strong offer of **fresh air, outdoor dining and good weather.**
