*Only asked of parents of children ages 12 to 17

TOPLINE AND METHODOLOGY

152. If each of the following were to happen, how likely, if at all, would you be to get the COVID-19 vaccine?

A community volunteer, who is going door-to-door, came to your house to discuss the vaccine and answer your questions

Base: Have not gotten the vaccine

| Wave: | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 4 | 11 | 13 | 70 | 2 | 15 | 84 |

You could get the vaccine at your doctor or primary care provider's office

Base: Have not gotten the vaccine

| Wave | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 7 | 19 | 16 | 55 | 3 | 26 | 71 |

You could get the vaccine at your office or workplace

Base: Have not gotten the vaccine and employed

| Wave: | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 6 | 15 | 13 | 64 | 2 | 21 | 77 |

You were given paid time off by your employer to get the vaccine

Base: Have not gotten the vaccine and employed

| Wave: | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 5 | 19 | 11 | 63 | 2 | 25 | 74 |

You could get the vaccine at a mobile clinic that was at a convenient location for you

Base: Have not gotten the vaccine

| Wave: | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 4 | 17 | 18 | 59 | 2 | 21 | 77 |

A celebrity or public figure you like endorses getting the vaccine

Base: Have not gotten the vaccine

| Wave: | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 4 | 10 | 14 | 70 | 2 | 14 | 84 |

TOPLINE AND METHODOLOGY

152. If each of the following were to happen, how likely, if at all, would you be to get the COVID-19 vaccine?

A friend or family member got the vaccine and talked to you about it

Base: Have not gotten the vaccine

| Wave: | <u>Very likely</u> | <u>Somewhat likely</u> | <u>Not very likely</u> | <u>Not at all likely</u> | <u>Skipped</u> | <u>Total likely</u> | <u>Total not likely</u> |
|-------------------|--------------------|------------------------|------------------------|--------------------------|----------------|---------------------|-------------------------|
| July 16-19 | 5 | 18 | 20 | 55 | 2 | 23 | 76 |

TOPLINE AND METHODOLOGY

Methodology

About the Study

This Axios/Ipsos Poll was conducted July 16 to July 19, 2021 by Ipsos using our KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,048 general population adults age 18 or older.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households are randomly sampled from all available households in the U.S. All persons in selected households are invited to join and participate in KnowledgePanel. Ipsos provides selected households that do not already have internet access a tablet and internet connection at no cost to them. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methods, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in English and Spanish.¹ The data were weighted to adjust for gender by age, race/ethnicity, education, Census region, metropolitan status, household income, and party identification. The demographic benchmarks came from 2019 American Community Survey (ACS) from the US Census Bureau. Party ID benchmarks are from recent ABC News/Washington Post telephone polls. The weighting categories were as follows:

- Gender (Male, Female) by Age (18–29, 30–44, 45–59, and 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Black Non-Hispanic, Other or 2+ Races Non-Hispanic, Hispanic)
- Education (High School graduate or less, Some College, Bachelor and beyond)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)
- Party ID (Democrat, Republican, Independent, Something else)

The margin of sampling error is plus or minus 3.3 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.15. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

¹ Wave 1 was conducted in English only.

TOPLINE AND METHODOLOGY

About Ipsos

Ipsos is the world's third largest Insights and Analytics company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. We serve more than 5000 clients across the world with 75 business solutions.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
