

# IPHA/IPSOS MRBI COVID-19 VACCINE TRACKER

A general public survey of attitudes and opinions towards a COVID-19 vaccine

## WHEN A VACCINE BECOMES AVAILABLE TO YOU PERSONALLY, WILL YOU TAKE IT?

## NATIONAL 14-DAY INCIDENCE OF CONFIRMED COVID-19 CASES PER 100,000 POPULATION (During Survey Fieldwork)

## DEMOGRAPHIC BREAKDOWN (August 2021)

	Gender		Age						Region				Social Class	
	Male	Female	18-24	25-34	35-44	45-54	55-64	65+	Dublin	Rest of Leinster	Munster	Conn/Ulster	ABC1	C2DE
<b>Total</b>														
YES	6	5	14	8	5	4	4	1	7	5	4	5	5	6
UNSURE	4	4	10	6	4	5	2	0	7	3	2	4	4	5
NO	5	5	4	8	7	5	4	2	4	5	6	6	3	7
<b>ALREADY HAD A VACCINE</b>	85	86	71	78	85	86	91	97	83	87	88	85	89	83

Results for each sub-group are shown in the corresponding column, e.g. among all those aged 18-24 surveyed, 14% said yes, 10% said they were unsure, 4% said no and 71% said they had already received a vaccine. Where percentages do not add up to 100%, this is due to statistical rounding.
