

PUBLIC POLL FINDINGS AND METHODOLOGY

Reuters/Ipsos: President Biden's Approval Rating

About the Study

These are some of the findings of an Ipsos poll conducted between August 13-16, 2021 and August 17, 2021 on behalf of Thomson Reuters. For the survey conducted August 13-16, 2021, a sample of 1,198 Americans age 18+ from the continental U.S., Alaska and Hawaii were interviewed online in English. The sample includes 587 Democrats, 390 Republicans, and 125 independents. For the survey conducted August 17, 2021, a sample of 947 Americans age 18+ from the continental U.S., Alaska and Hawaii were interviewed online in English. The sample includes 403 Democrats, 350 Republicans, and 123 independents. Weighting was then employed to balance demographics to ensure that the sample's composition reflects that of the adult population according to Census data and to provide results intended to approximate the sample universe. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll conducted August 13-16, 2021 is accurate to within ± 3.2 percentage points and the poll conducted August 17, 2021 is accurate to within ± 3.6 percentage points, 19 times out of 20, had all Americans been polled. The credibility interval will be wider among subsets of the population. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error.

For full results, please refer to the following annotated questionnaire.

PUBLIC POLL FINDINGS AND METHODOLOGY

		All Respondents	
		August 17, 2021	August 13-16, 2021
With which political party do you most identify? Summary	Strong Democrat	15%	17%
