Q7. To what extent would you support or oppose each of the following measures relating to asylum seekers in the UK? - Change the system, so that asylum seekers who make their own way to the UK are only allowed to stay in the UK for a limited time (even if their asylum claim is successful) while those who are taken in through a UN resettlement scheme are allowed to stay permanently
All respondents

Q11A. To what extent do you agree or disagree with each of the following statements? - Summary

All respondents

	Q11A. To what extent do you agree or disagree with each of the following statements?			
	Asylum seekers might have useful skills and experience and should be allowed to work.	Allowing asylum seekers to work would reduce their dependence on state support.	Being allowed to work would help asylum seekers to learn English and integrate.	Giving asylum seekers the right to work could attract people without a genuine claim to the UK
