

TOPLINE & METHODOLOGY

ABC News/Ipsos Poll

Conducted by Ipsos using the probability-based KnowledgePanel®
A survey of the American general population (ages 18+)
Interview dates: September 24 to September 28, 2021

Number of interviews, adults: 1,101; parents with at least 1 child under the age of 12: 537

Margin of error for the total sample: +/- 3.7 percentage points at the 95% confidence level;
for parents with at least 1 child under the age of 12: +/- 4.7 percentage points

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

NOTE: * = less than 0.5%, - = no respondents

Annotated Questionnaire:

1. Do you approve or disapprove of the way Joe Biden is handling:

The response to the coronavirus (COVID-19)	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	57	42	1
August 27-28	64	35	1
July 23-24	63	36	1
March 26-27*	72	28	*
March 5-6	68	32	*
February 5-6	67	32	1
January 22-23	69	29	2

*Note: Prior to the March 26-27 poll the wording read "Do you approve or disapprove of the way Joe Biden is handling the response to the coronavirus (COVID-19)?"

Immigration and the situation at the U.S.-Mexico border	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	33	66	1
August 27-28	41	56	3
July 23-24	37	61	3

The economic recovery	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	51	48	1
August 27-28	55	41	3
July 23-24	53	46	1
March 26-27	60	38	2

TOPLINE & METHODOLOGY

1. Do you approve or disapprove of the way Joe Biden is handling:

Gun violence	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	38	60	2
August 27-28	44	52	4
July 23-24	37	61	3
March 26-27	42	57	2

Crime	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	43	55	2
August 27-28	46	50	3
July 23-24	39	58	3

Afghanistan	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	38	61	1
August 27-28	38	59	2
July 23-24*	55	41	3

*Note: July 23-24 poll wording read "The withdrawal of U.S. troops from Afghanistan"

Rebuilding the United States' infrastructure	<u>Approve</u>	<u>Disapprove</u>	<u>Skipped</u>
September 24-28	55	44	1
August 27-28	62	35	3

2. Undocumented immigrants often request asylum protection under U.S. law, citing persecution in their home country. How should the United States deal with people seeking asylum at the U.S.-Mexico border?

	<u>Deport them back to their native countries immediately</u>	<u>Allow them to stay in the U.S. until their cases are heard</u>	<u>Skipped</u>
September 24-28	40	58	1

TOPLINE & METHODOLOGY

3. Are you the parent of a child or children under the age of 12?

	<u>Yes</u>	<u>No</u>	<u>Skipped</u>
September 24-28	19	81	-

4. How likely are you to have your child or children under 12 get the coronavirus vaccine when it is available for your child's age group?

Base: Parent of a child under the age of 12 (n=537)

	<u>Very likely</u>	<u>Somewhat likely</u>	<u>Not so likely</u>	<u>Not likely at all</u>	<u>Skipped</u>	<u>Very/ somewhat likely</u>	<u>Not so /Not likely at all</u>
September 24-28	39	17	13	30	1	56	43

5. Have you personally received at least one dose of a coronavirus vaccine, or not?

	<u>Yes</u>	<u>No</u>	<u>Skipped</u>
September 24-28	77	22	1
July 23-24	74	25	1

TOPLINE & METHODOLOGY

About the Study

This ABC News/Ipsos poll was conducted September 24 to September 28, 2021 by Ipsos using the probability-based KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,101 adults age 18 or older, including an oversample of parents with at least one child under the age of 12.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households invited to join the panel are randomly selected from all available households in the U.S. Persons in the sampled households are invited to join and participate in the panel. Those selected who do not already have internet access are provided a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methodologies, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in both English and Spanish. The data were weighted to adjust for gender by age, race/ethnicity, education, Census region, metropolitan status, household income, parent status by age by gender, parent status by education by race/ethnicity, Covid-19 vaccination status, and party identification. The demographic benchmarks came from 2019 American Community Survey (ACS) from the US Census Bureau. Covid-19 vaccination status benchmarks are from the Centers for Disease Control and Prevention (CDC) administrative records as of Tuesday, September 28, 2021. Party ID benchmarks are from recent ABC News/Washington Post telephone polls. The weighting categories were as follows:

- Gender (Male, Female) by Age (18–29, 30–44, 45–59, and 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Black Non-Hispanic, Other or 2+ Races Non-Hispanic, Hispanic)
- Education (High School graduate or less, Some College, Bachelor and beyond)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)
- Parent status (Parent with at least 1 child under 12 years, Not a parent of a child under 12 years) by Age (18-29, 30+) by Gender (Male, Female)
- Parent status (Parent with at least 1 child under 12 years, Not a parent of a child under 12 years) by Education (Less than Bachelor, Bachelor and beyond) by Race/Hispanic Ethnicity (White Non-Hispanic, All Other)
- Covid-19 vaccination status (Vaccinated with at least one dose, Not Vaccinated)
- Party ID (Democrat, Republican, Independent, Something else)

TOPLINE & METHODOLOGY

The margin of sampling error is plus or minus 3.7 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.56. Among parents with at least 1 child under the age of 12, the margin of sampling error is plus or minus 4.7 percentage points at the 95% confidence level, with a design effect of 1.24. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.
