

## TOPLINE & METHODOLOGY

### For Latino Americans, the U.S. offers opportunity

New Axios-Ipsos poll in partnership with Telemundo finds differences by age in perceptions of opportunity in the U.S.

**Washington, DC, March 24, 2022** -- A new Axios-Ipsos Latino Poll in partnership with Telemundo finds that inflation and supply chain issues are the top concern among Latino Americans. At the same time, many feel unrepresented by both major parties, while increasingly finding Republicans strong on a top concern — the economy.

The poll also finds that many believe a strong work ethic is very important to success in America and that the “American Dream” is attainable — though differences exist by age.

#### Detailed Findings

1. Inflation and supply chain issues are the top concern for Latinos, with more concerned about it now than in December. Many still feel isolated from both major parties, though more now view Republicans as strong on the economy.
  - Compared to December, Latino Americans are increasingly concerned about inflation or supply chain issues (34% vs. 22%), and foreign conflicts (23% vs 5%). At the same time, they are less concerned about COVID-19 (21% vs. 37%).
  - Concerns over inflation has increased across party lines, though is most pronounced among Republican Latinos (up to 52% from 33%).
  - Democrats (33%) are still seen as caring about Latinos more than Republicans (8%), though a plurality say neither party do (24%) or they don't know (21%).
  - Slightly fewer Latino Americans say the Democratic party represents people like them than in December (32% vs. 38%). Again, a plurality say neither party does (23%) or they don't know (18%).
  - Republicans are seen as being slightly better on the economy than Democrats (24% vs. 19%), whereas in December there was no difference between the two parties.
2. A majority of Latino Americans feel that they belong in the U.S. while still feeling a connection to the country or countries of their family's heritage. Many believe in the promise of the “American Dream.”
  - More than six in ten Latinos agree the U.S. has opportunities for all people (68%) and that they can live the “American Dream” (61%).
    - These beliefs are more strongly held by Republican Latinos than Democratic or independent ones.
    - Those under 30 are less likely than those over 30 to believe they can live the “American Dream.”
  - The same share of Latinos share a connection to the country or countries of their family's heritage (57%) as feel the U.S. makes them feel like they belong here.
  - Both first (63%) and second (54%) generation Latinos feel a closer connection to the country or countries of their family's heritage than do third generation (34%) ones.
3. Hard work and a supportive family are viewed as keys to achieving success in America rather than luck or wealthy parents. However, differences exist by age.

## TOPLINE & METHODOLOGY

- Three-fourths (74%) say a strong work ethic is very important to succeeding in America while nearly all (94%) agree it is very or somewhat important.
    - Those 50+ are more likely to say it is very important than those under 50.
  - Seven in ten (70%) say a supportive family is very important to succeeding in America and 62% say the ability to speak English is.
  - By comparison, far fewer say luck (23%) or rich parents (18%) are very important to succeeding in America.
  - Those under 30 are more likely to view luck as very important to success than those 30+ by a roughly 14 percentage point margin. This is likely in part due to partisan differences, with 28% of Democrats viewing luck as very important to success vs. 12% of Republicans.
4. Latinos value education, with many believing a college education is important to success in America.
- More than four in ten (43%) say a college education is very important to succeeding in America. This is higher among first generation Latinos (51%) than second (31%) or third (39%). Overall, 83% agree college is very or somewhat important to success.
  - Nearly all (90%) support requiring K-12 education, with two thirds (66%) strongly supporting it.
  - Just under half (44%) support giving parents the ability to stop schools from teaching subjects that parents do not like.
    - Republican (64%) Latinos are more likely to support this than Democratic (35%) ones, with independents in the middle (46%).
  - A wide majority also support teaching middle and high schoolers about sex ed (84%) and sexuality and gender identity (67%). Support for the latter is divided by partisanship; 80% of Democrats are in support compared to just 37% of Republicans. Independents fall closer to Democrats in this case, with 71% in support.

*This Axios/Ipsos Latino Poll, in partnership with Telemundo, was conducted March 7-18, 2022, by Ipsos' KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,005 Hispanic/Latino adults age 18 or older. The margin of sampling error is ±3.7 percentage points at the 95% confidence level, for results based on the entire sample.*

**For full results, please refer to the following annotated questionnaire:**

# TOPLINE & METHODOLOGY

## Axios/Ipsos with Telemundo U.S. Latino Survey Q1, 2022

Conducted by Ipsos using KnowledgePanel®  
A survey of the Latino/Hispanic population in the United States (ages 18+)

Interview dates: March 7 – March 18, 2022  
Number of interviews: 1005

Margin of error: +/-3.7 percentage points at the 95% confidence level

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

NOTE: \* = less than 0.5%, - = no respondents

### Annotated Questionnaire:

1. Which three of the following topics do you find the most worrying? (Select up to three)

	March 2022 (N=1005)	December 2021 (N=1064)
Inflation or supply chain breakdowns	34	22
Crime or gun violence	27	30
Climate change	25	25
Foreign conflicts / conflicts in other countries	23	5
COVID-19/coronavirus	21	37
Immigration	20	20
Healthcare	18	21
Racial injustice and discrimination	17	15
Political extremism or polarization	14	14
Social inequality / discrimination	12	16
Taxes	12	13
Education	11	14
Unemployment	10	10
Government budget and debt	9	8
Natural disasters	9	8
Domestic terrorism	8	9
Opioid or drug addiction	6	7
Other	2	2
None of these	2	2
Skipped	*	1

## TOPLINE & METHODOLOGY

2. How likely, if at all, are you to vote in the 2022 midterm elections?

	March 2022	December 2021
Certain or almost certain	22	26
Very likely	18	19
Somewhat likely	12	9
Not very likely	13	12
Not applicable/not registered voter	24	22
Don't know	11	12
Skipped	*	1

3. If you do vote in the 2022 midterm congressional elections, how would you vote?

	March 2022	December 2021
Democratic candidate	30	31
Republican candidate	17	15
Independent / other candidate	6	8
Would not vote	18	18
Don't know	28	28
Skipped	1	1

4. Do you have a favorable or unfavorable opinion of the following?

### Total Favorable Summary

	Total March 2022	Total December 2021
Your state governor	52	48

## TOPLINE & METHODOLOGY

C1. Which of these is your main source of news?

	March 2022	December 2021
ABC / CBS / NBC News	13	14
Social media	16	11
Digital or online news	11	9
Telemundo	8	8
Univision	8	8
Public television or radio	8	7
CNN	4	6
Youtube	6	6
FOX News	7	5
MSNBC	2	2
New York Times, Washington Post, or Wall Street Journal	2	2
Your local newspaper	1	2
Other	4	6
None of these	9	12
Skipped	1	1

C2. If you voted in the 2020 presidential election, who did you vote for?

	March 2022	December 2021
Did not vote	49	45
Joe Biden	27	27
Donald Trump	16	16
Someone else	6	8
Skipped	3	3

## TOPLINE & METHODOLOGY

### About the Study

The Axios/Ipsos with Telemundo U.S. Latino Survey Q4, 2021 was conducted March 7<sup>th</sup> – March 18<sup>th</sup>, 2022 by Ipsos using our KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,005 Latino/Hispanic adults age 18 or older in the United States.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs an addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households invited to join the panel are randomly selected from all available households in the U.S. Persons in the sampled households are invited to join and participate in the panel. Those selected who do not already have internet access are provided a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methodologies, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

The study was conducted in both English and Spanish. The data were weighted to adjust for gender by age, education, language proficiency, Latino/Hispanic origin, household income, Census region, metropolitan status, and 2020 vote choice. Demographic benchmarks, among Latino/Hispanic adults age 18+, came from the 2021 Current Population Survey (CPS) with language proficiency from the 2019 American Community Survey (ACS). Benchmarks for 2020 Vote choice among the US Latino/Hispanic population came from Census pot-election survey and Pew 2021 validate voter survey. The weighting variables and categories were as follows:

- Gender (Male, Female) by Age (18–29, 30–44, 45–59, and 60+)
- Education (Less than High School grad, High School grad, Some College/Tech/Associate's degree, Bachelor's degree or higher)
- Language Proficiency (English proficient, Bilingual, Spanish proficient)
- Latino/Hispanic origin (Mexican, Puerto Rican, Cuban, Central American, Other)
- Household Income (Under \$50,000, \$50,000-\$99,999, \$100,000+)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- 2020 Vote choice (Trump, Biden, Other/Did not vote)

The margin of sampling error is plus or minus 3.7 percentage points at the 95% confidence level, for results based on the entire sample of Latino/Hispanic adults. The margin of sampling error takes into account the design effect, which was 1.45. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

## TOPLINE & METHODOLOGY

### About Ipsos

Ipsos is the world's third largest Insights and Analytics company, present in 90 markets and employing more than 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. We serve more than 5000 clients across the world with 75 business solutions.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).
