GLOBAL INDEX

1

GLOBAL TRUSTWORTHINESS RANKING 2022

Please look at this list of different types of people. In general, do you think each is trustworthy or untrustworthy in your country?

Please use a scale of 1 to 5, where 1 is very trustworthy and 5 is very untrustworthy

Ipsos Global Trustworthiness Index 2022 – 21,515 participants across 28 countries, interviewed online 27 May – 10 June 2022

Online samples in Brazil, Chile, mainland China, Colombia, India, Malaysia, Mexico, Peru, Saudi Arabia, South Africa, and Turkey tend to be more urban, educated, and/or affluent than the general population

This "Global Country Average" reflects the average result for all the countries where the survey was conducted. It has not been adjusted to the population size of each country or market and is not intended to suggest a total result.

GLOBAL TRUSTWORTHINESS RANKING 2022 NET TRUST

Please look at this list of different types of people. In general, do you think each is trustworthy or untrustworthy in your country?

Please use a scale of 1 to 5, where 1 is very trustworthy and 5 is very untrustworthy

Net trustworthy

(% 1-2 out of five, subtract % 4-5 out of five)

Ipsos Global Trustworthiness Index 2022 – 21,515 participants across 28 countries, interviewed online 27 May – 10 June 2022

METHODOLOGY

These are the findings of an Ipsos online survey conducted between 23 April and 7 May 2021.

The survey was conducted in 28 countries around the world, via the Ipsos Online Panel system in Argentina, Australia, Belgium, Brazil, Canada, Chile, China, Colombia, Denmark, France, Germany, Great Britain, Hungary, India, Italy, Japan, Malaysia, Mexico, the Netherlands, Peru, Poland, Saudi Arabia, South Africa, South Korea, Spain, Sweden, Turkey, and the United States.

The results are comprised of an international sample of 21,515 adults aged 16-74 in most countries and aged 18-74 in Canada, Malaysia, South Africa, Turkey and the United States. Approximately 1,000 individuals participated on a country by country basis via the Ipsos Online Panel, with the exception of Argentina, Belgium, Chile, Colombia, Denmark, Hungary, India, Malaysia, Mexico, the Netherlands, Peru, Poland, Saudi Arabia, South Africa, South Korea Sweden and Turkey, where each have a sample of approximately 500. In China the sample size was 3,001.

The samples in Argentina, Australia, Belgium, Canada, Denmark, France, Germany, Great Britain, Hungary, Italy, Japan, the Netherlands, Poland, South Korea, Spain, Sweden, and United States can be taken as representative of their general adult population under the age of 75.

The samples in other countries (Brazil, China, Chile, Colombia, India, Malaysia, Mexico, Peru, Saudi Arabia, South Africa and Turkey) produce a national sample that is more urban & educated, and with higher incomes than their fellow citizens. The survey results for these countries should be viewed as reflecting the views of the more “connected” segment of their population.

Weighting was then employed to balance demographics and ensure that the sample's composition reflects that of the adult population according to the most recent country Census data.

The “Global Country Average” reflects the average result for all countries and markets where the survey was conducted. It has not been adjusted to the population size of each country and is not intended to suggest a total result.

Where results do not sum to 100 or the difference appears to be plus or minus one point more or less than the actual, this may be due to rounding, multiple responses, or the exclusion of “don’t know” or not stated responses.

The precision of Ipsos online polls is calculated using a credibility interval with a poll of 1,000 accurate to plus or minus 3.5 percentage points and of 500 accurate to plus or minus 5.0 percentage points. For more information on the use of credibility intervals, please visit the Ipsos website.

The publication of these findings abides by local rules and regulations.

ABOUT IPSOS

Ipsos is the third largest market research company in the world, present in 90 markets and employing more than 18,000 people.

Our research professionals, analysts and scientists have built unique multi-specialist capabilities that provide powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. Our 75 business solutions are based on primary data coming from our surveys, social media monitoring, and qualitative or observational techniques.

“Game Changers” – our tagline – summarises our ambition to help our 5,000 clients to navigate more easily our deeply changing world.

Founded in France in 1975, Ipsos is listed on the Euronext Paris since July 1st, 1999. The company is part of the SBF 120 and the Mid-60 index and is eligible for the Deferred Settlement Service (SRD).

GAME CHANGERS

In our world of rapid change, the need for reliable information to make confident decisions has never been greater.

At Ipsos we believe our clients need more than a data supplier, they need a partner who can produce accurate and relevant information and turn it into actionable truth.

This is why our passionately curious experts not only provide the most precise measurement, but shape it to provide True Understanding of Society, Markets and People.

To do this we use the best of science, technology and know-how and apply the principles of security, simplicity, speed and substance to everything we do.

So that our clients can act faster, smarter and bolder.
Ultimately, success comes down to a simple truth:
You act better when you are sure.

**BE
SURE.
ACT
SMARTER.**

GAME CHANGERS
