

TOPLINE & METHODOLOGY

FiveThirtyEight/Ipsos 2022 Election Tracking Survey

Conducted by Ipsos using KnowledgePanel®
A survey of the American general population (ages 18+)

Interview dates: November 9 – 21, 2022

Number of interviews: 1,509

Number of Democrat interviews: 434

Number of Republican interviews: 434

Number of Independent interviews: 641

Margin of error: +/- 3.1 percentage points for all respondents at the 95% confidence level

Margin of error: +/- 5.8 percentage points for Democrats at the 95% confidence level

Margin of error: +/- 5.3 percentage points for Republicans at the 95% confidence level

Margin of error: +/- 4.8 percentage points for Independents at the 95% confidence level

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

*NOTE: * = less than 0.5%, - = no respondents*

Annotated Questionnaire:

1. What do you think is the main issue facing America at this moment?

Open-ended responses provided separately.

TOPLINE & METHODOLOGY

2. Which of the following topics do you find the most worrying to you personally? (Select up to three)

TOPLINE & METHODOLOGY

About the Study

This Ipsos poll was conducted November 9-21, 2022, by Ipsos using the probability-based KnowledgePanel®. This poll is based on a nationally representative probability sample of 1,509 adults age 18 or older. The sample includes 434 Democrats, 434 Republicans, and 641 independents.

The survey was conducted using KnowledgePanel, the largest and most well-established online probability-based panel that is representative of the adult US population. Our recruitment process employs a scientifically developed addressed-based sampling methodology using the latest Delivery Sequence File of the USPS – a database with full coverage of all delivery points in the US. Households invited to join the panel are randomly selected from all available households in the U.S. Persons in the sampled households are invited to join and participate in the panel. Those selected who do not already have internet access are provided a tablet and internet connection at no cost to the panel member. Those who join the panel and who are selected to participate in a survey are sent a unique password-protected log-in used to complete surveys online. As a result of our recruitment and sampling methodologies, samples from KnowledgePanel cover all households regardless of their phone or internet status and findings can be reported with a margin of sampling error and projected to the general population.

This survey was conducted in English and Spanish. The data were weighted to adjust for gender by age, race/ethnicity, education, Census region, metropolitan status, household income, and 2020 vote. The demographic benchmarks came from the 2021 March Supplement of the Current Population Survey (CPS). The 2020 vote benchmark comes from the Federal Election Commission's Official 2020 Presidential General Election Results.

- Gender (Male, Female) by Age (18–29, 30-44, 45-59, 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Black Non-Hispanic, Other Non-Hispanic, Hispanic)
- Education (Less than High School, High School, Some College, Bachelor or higher)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under \$25,000, \$25,000-\$49,999, \$50,000-\$74,999, \$75,000-\$99,999, \$100,000-\$149,999, \$150,000+)
- 2020 Vote (Biden, Trump, Did not vote)

The margin of sampling error is plus or minus 3.1 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.51. The margin of sampling error is higher and varies for results based on other sub-samples. Sampling error is only one potential source of error. There may be other unmeasured non-sampling error in this or any poll. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.

TOPLINE & METHODOLOGY

About Ipsos

Ipsos is one of the largest market research and polling companies globally, operating in 90 markets and employing over 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. Our 75 solutions are based on primary data from our surveys, social media monitoring, and qualitative or observational techniques.

Our tagline "Game Changers" sums up our ambition to help our 5,000 customers move confidently through a rapidly changing world.

Founded in France in 1975, Ipsos has been listed on the Euronext Paris since July 1, 1999. The company is part of the SBF 120 and Mid-60 indices and is eligible for the Deferred Settlement Service (SRD). ISIN code FR0000073298, Reuters ISOS.PA, Bloomberg IPS:FP www.ipsos.com
