

1. The Office of the Information and Privacy Commissioner (OIPC) recently released a report highlighting significant gaps in the protection of personal Health Information in the Provincial Health Information System. How important should addressing the gaps and recommendations from the OIPC report be for the provincial Government of British Columbia?

3. The average processing time for the Government of BC to process a general freedom of information request is 65 days. The legislated requirement is for requests to be processed in 30 days. How important is it for the BC government to reduce its average processing time and meet its legislated requirements?
