PUBLIC POLL FINDINGS AND METHODOLOGY

About the Study

These are some of the findings of the sixty-ninth wave of an Ipsos poll conducted between February 28 – March 1, 2023. For this survey, a sample of 1,105 adults age 18+ from the continental U.S., Alaska, and Hawaii was interviewed online in English.

- The first wave was conducted between April 10-13, 2020, among 1,114 U.S. adults
- The second was conducted April 17-20, 2020, among 1,111 U.S. adults
- The third was conducted April 27-28, 2020, among 1,112 U.S. adults
- The fourth was conducted May 4-5, 2020, among 1,114 U.S. adults
- The fifth wave was conducted May 14-15, 2020, among 1,114 U.S. adults
- The sixth wave was conducted May 28-29, 2020, among 1,113 U.S. adults
- The seventh wave was conducted June 8-9, 2020, among 1,113 U.S. adults
- The eighth wave was conducted June 23-24, 2020, among 1,113 U.S. adults
- The ninth wave was conducted July 21-22, 2020, among 1,115 U.S. adults
- The tenth wave was conducted August 4-5, 2020, among 1,111 U.S. adults
- The eleventh wave was conducted August 18-10, 2020, among 1,115 U.S. adults
- The twelfth wave was conducted September 1-2, 2020, among 1,113 U.S. adults
- The thirteenth wave was conducted September 15-16, 2020, among 1,113 U.S. adults
- The fourteenth wave was conducted September 29-30, 2020, among 1,115 U.S. adults
- The fifteenth wave was conducted October 13-14, 2020, among 1,114 U.S. adults
- The sixteenth wave was conducted October 27-28, 2020, among 1,115 U.S. adults
- The seventeenth wave was conducted November 10-12, 2020, among 1,113 adults
- The eighteenth wave was conducted November 24-25, 2020, among 1,114 adults
- The nineteenth wave was conducted December 9-10, 2020, among 1,112 adults
- The twentieth wave was conducted January 20-21, 2021, among 1,115 adults
- The twenty-first wave was conducted February 2-3, 2021, among 1,115 adults
- The twenty-second wave was conducted February 17-18, 2021, among 1,115 adults
- The twenty-third wave was conducted March 2-3, 2021, among 1,115 adults.
- The twenty-fourth wave was conducted March 15-16, 2021, among 1,115 adults.
- The twenty-fifth wave was conducted March 30-31, 2021, among 1,115 adults.
- The twenty-sixth wave was conducted April 13-14, 2021, among 1,115 adults.
- The twenty-seventh wave was conducted April 27-28, 2021, among 1,115 adults.
- The twenty-eighth wave was conducted May 11-12, 2021, among 1,167 adults.
- The twenty-ninth wave was conducted May 25-26, 2021, among 1,178 adults.
- The thirtieth wave was conducted June 8-9, 2021, among 1,177 adults.
- The thirty-first wave was conducted June 22-23, 2021, among 1,176 adults.
- The thirty-second wave was conducted July 6-7, 2021, among 1,179 adults.
- The thirty-third wave was conducted July 20-21, 2021, among 1,137 adults.
- The thirty-fourth wave was conducted August 3-4, 2021, among 1,174 adults.
- The thirty-fifth wave was conducted August 18-19, 2021, among 1,177 adults.
- The thirty-sixth wave was conducted August 31-September 1, 2021, among 1,166 adults.
- The thirty-seventh wave was conducted September 14-15, 2021, among 1,177 adults.
- The thirty-eighth wave was conducted September 28-29, 2021, among 1,173 adults.
- The thirty-ninth wave was conducted October 12-13, 2021, among 1,174 adults.
- The fortieth wave was conducted October 26-27, 2021, among 1,160 adults.
- The forty-first wave was conducted November 9-10, 2021, among 1,160 adults
- The forty-second wave was conducted November 22-23, 2021, among 1,162 adults

PUBLIC POLL FINDINGS AND METHODOLOGY

- The forty-third wave was conducted December 7-8, 2021, among 1,160 adults

- The fifty-ninth wave was conducted August 16-17, 2022, among 1,120 adults
- The sixtieth wave was conducted August 30-31, 2022, among 1,110 adults
- The sixty-first wave was conducted September 13-14, 2022, among 1,118 adults
- The sixty-second wave was conducted September 27-28, 2022, among 1,120 adults
- The sixty-third wave was conducted October 11-12, 2022, among 1,120 adults
- The sixty-fourth wave was conducted October 25-26, 2022, among 1,120 adults
- The sixty-fifth wave was conducted November 11-12, 2022, among 1,115 adults
- The sixty-sixth wave was conducted December 7-8, 2022, among 1,118 adults
- The sixty-seventh wave was conducted January 18-19, 2023, among 1,119 adults
- The sixty-eighth wave was conducted January 31-February 1, 2023, among 1,118 adults
- The sixty-ninth wave was conducted February 14-15, 2023, among 1,109 adults
- The seventieth wave was conducted February 28- March 1, 2023 among 1,105 adults

The sample for this study was randomly drawn from [Ipsos' online panel](#), partner online panel sources, and ["river" sampling](#) and does not rely on a population frame in the traditional sense. Ipsos uses fixed sample targets, unique to each study, in drawing a sample. After a sample has been obtained from the Ipsos panel, Ipsos calibrates respondent characteristics to be representative of the U.S. Population using standard procedures such as raking-ratio adjustments. The source of these population targets is U.S. Census 2019 American Community Survey data. The sample drawn for this study reflects fixed sample targets on demographics. Posthoc weights were made to the population characteristics on gender, age, race/ethnicity, region, and education.

Statistical margins of error are not applicable to online non-probability polls. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error and measurement error. Where figures do not sum to 100, this is due to the effects of rounding. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll has a credibility interval of plus or minus 3.6 percentage points for all respondents. Ipsos calculates a design effect (DEFF) for each study based on the variation of the weights, following the formula of Kish (1965). This study had a credibility interval adjusted for design effect of the following (n=1,105, DEFF=1.5, adjusted Confidence Interval=+/-5.1 percentage points).

PUBLIC POLL FINDINGS AND METHODOLOGY

- The forty-sixth wave of this study has a credibility interval of plus or minus 2.5 percentage points.
- The first, fourth, fifth, sixth, seventh, eighth, ninth, eleventh, twelfth, thirteenth, fourteenth, fifteenth, sixteenth, seventeenth, eighteenth, twentieth, twenty-first, twenty-second, twenty-third, twenty-fourth, twenty-fifth, twenty-sixth, twenty-seventh, twenty-eighth, twenty-ninth, thirtieth, thirty-first, thirty-second, thirty-third, thirty-fourth, thirty-fifth, thirty-sixth, thirty-seventh, thirty-eighth, thirty-ninth, fortieth, forty-first, forty second, forty-third, forty-fourth, and forty-fifth waves of this study have a credibility interval of plus or minus 3.3 percentage points for all respondents.
- The second, third, tenth, and nineteenth waves of this study have a credibility interval of plus or minus 3.4 percentage points for all respondents.
- The forty-seventh, forty-eighth, forty-ninth, fiftieth, and fifty-first waves of this study have a credibility interval of plus or minus 3.5 percentage points.
- The fifty-second, fifty-third, fifty-fourth, fifty-fifth, fifty-sixth, fifty-seventh, fifty-eighth, fifty-ninth, sixtieth, sixty-first, sixty-second, sixty-third, sixty-fourth, sixty-fifth, sixty-sixth, sixty-seventh, sixty-eighth, and sixty-ninth waves of this study have a credibility interval of 3.6 percentage points.

PUBLIC POLL FINDINGS AND METHODOLOGY

About Ipsos

Ipsos is one of the largest market research and polling companies globally, operating in 90 markets and employing over 18,000 people.

Our passionately curious research professionals, analysts and scientists have built unique multi-specialist capabilities that provide true understanding and powerful insights into the actions, opinions and motivations of citizens, consumers, patients, customers or employees. Our 75 solutions are based on primary data from our surveys, social media monitoring, and qualitative or observational techniques.

Our tagline "Game Changers" sums up our ambition to help our 5,000 customers move confidently through a rapidly changing world.

Founded in France in 1975, Ipsos has been listed on the Euronext Paris since July 1, 1999. The company is part of the SBF 120 and Mid-60 indices and is eligible for the Deferred Settlement Service (SRD). ISIN code FR0000073298, Reuters ISOS.PA, Bloomberg IPS:FP www.ipsos.com
