As you may know, the average rate for a two-year fixed mortgage was announced as 6.01% this week, which is one of the highest levels it has been since August 2008. How much, if at all, do you think each of the following have contributed to mortgage rates increasing to this level over the last three months? Decisions made by the Prime Minister, Rishi Sunak

As you may know, the average rate for a two-year fixed mortgage was announced as 6.01% this week, which is one of the highest levels it has been since August 2008. How much, if at all, do you think each of the following have contributed to mortgage rates increasing to this level over the last three months?
Britain leaving the European Union
