

PUBLIC POLL FINDINGS AND METHODOLOGY

Reuters/Ipsos Poll: Trump Indictment on Federal Charges

Topline Findings

These are the results of a Reuters/Ipsos poll conducted between June 9-12, 2023. For this survey, a sample of 1,005 adults age 18+ from the continental U.S., Alaska, and Hawaii was interviewed online in English. The poll has a credibility interval of plus or minus 3.8 percentage points for all respondents. For complete results, please refer to the following annotated questionnaire:

PUBLIC POLL FINDINGS AND METHODOLOGY

		All Respondents	Democrats	Republicans	Independents
<p>TM3150Y23. As you may know, classified documents have been found at Joe Biden, Donald Trump, and Mike Pence's private homes. Pence and Biden both notified, returned and cooperated with officials upon discovery of the documents. The documents in Trump's possession were obtained through an involuntary search of his property with a search warrant. Trump now faces criminal charges. Prosecutors have notified Mike Pence that he will not face charges, according to media reports, while it is unclear whether Biden will be indicted. Which of the following comes closest to your opinion about this?</p>	Each of the men are being treated fairly given the circumstances	48%	77%	20%	46%
	Former President Trump is being treated unfairly	34%	13%	69%	23%
	Not sure	18%	10%	11%	31%
	Total	1005	447	337	137
<p>TM3138Y23_10. Donald Trump should be disqualified from running for president because of the criminal charges against him : Please indicate how much you agree or disagree with the following statement:</p>	Strongly agree	38%	63%	10%	37%

	Not sure	5%	1%	5%	5%
	Total	1005	447	337	137

PUBLIC POLL FINDINGS AND METHODOLOGY

About the Study

These are some of the findings of an Ipsos poll conducted between June 9-12, 2023 on behalf of Thomson Reuters. For this survey, a sample of 1,005 adults age 18+ from the continental U.S., Alaska, and Hawaii was interviewed online in English. The sample also includes 447 Democrats, 337 Republicans, and 137 independents.

The sample was randomly drawn from [Ipsos' online panel](#), partner online panel sources, and "[river](#)" [sampling](#) and does not rely on a population frame in the traditional sense. Ipsos uses fixed sample targets, unique to each study, in drawing a sample. After a sample has been obtained from the Ipsos panel, Ipsos calibrates respondent characteristics to be representative of the U.S. Population using standard procedures such as raking-ratio adjustments. The source of these population targets is U.S. Census 2022 American Community Survey data. The sample drawn for this study reflects fixed sample targets on demographics. Post hoc weights were made to the population characteristics on gender, age, race/ethnicity, region, education and political party affiliation.

Statistical margins of error are not applicable to online non-probability polls. All sample surveys and polls may be subject to other sources of error, including but not limited to coverage error and measurement error. Where figures do not sum to 100, this is due to the effects of rounding. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll has a credibility interval of plus or minus 3.8 percentage points for all respondents. Ipsos calculates a design effect (DEFF) for each study based on the variation of the weights, following the formula of Kish (1965). This study had a credibility interval adjusted for design effect of the following (n=1,005, DEFF=1.5, adjusted Confidence Interval=+/- 5.3 percentage points).

The poll also has a credibility interval of plus or minus 5.7 percentage points for Democrats, plus or minus 6.5 percentage points for Republicans, and plus or minus 10.3 percentage points for independents.
