Neither support nor oppose

Tend to support

#### Support for, and opposition to, road user charging

As you may know, several schemes exist across the world, including in central London, that charge road users a fee to drive in and around certain towns and city centres. The schemes are designed to reduce traffic congestion and improve the local environment e.g. by reducing emissions, or to raise revenue to invest in transport. In principle to what extent do you support or oppose such schemes?

Base: 5875 UK adults, age 16+, interviewed online, 25 April – 1 May 2024.
