### 22-087220-50 - POLICE ACTIVISM AND IMPARTIALITY

DECEMBER 2023 PUBLIC IPSOS

10 Sep 2024

Q10\_1 - Now please think about the following types of activities that police employees (including officers and other police employees), may be engaged in through the policing organisation. To what extent do you think they are effective, or not, in helping to improve the way police serve their communities? Participation in employee networks: where police colleagues come together around a shared purpose to impact the experience of employees within their organisation.

IPSOS

10 Sep 2024 Table 37

Q10\_4 - Now please think about the following types of activities that police employees (including officers and other police employees), may be engaged in through the policing organisation. To what extent do you think they are effective, or not, in helping to improve the way police serve their communities? Seeking the views of all community groups: engaging with all community groups to better understand different perspectives and community's needs.

Base: All adults aged 16-75 in England and Wales

10 Sep 2024 Table 40

Q10\_7 - Now please think about the following types of activities that police employees (including officers and other police employees), may be engaged in through the policing organisation. To what extent do you think they are effective, or not, in helping to improve the way police serve their communities? Police force communications expressing an opinion on debated issues: media communications with the public (e.g. social media posts, press releases, etc) expressing an opinion on topics or matters that are being discussed in the public domain.

10 Sep 2024 Table 47

Q11\_2 - Still thinking about activities aimed at enhancing police engagement with the general public. Now please think about the following types of activities that police employees), may be engaged in through the policing organisation. Thinking about the way police officers deal with the general public, on balance, do you think each of these tend to make police officers more impartial or less impartial, or do they have no impact on police officers? Equality, diversity and inclusion training: training aimed at increasing awareness, among police employees, of different community's needs.

Table 56

10 Sep 2024

Q11\_11 - Still thinking about activities aimed at enhancing police engagement with the general public. Now please think about the following types of activities that police employees), may be engaged in through the policing organisation. Thinking about the way police officers deal with the general public, on balance, do you think each of these tend to make police officers more impartial or less impartial, or do they have no impact on police officers? Police force communications with the public (e.g. social media posts, press releases, advertising, etc) promoting or attracting diversity and inclusion in recruitment within the police force
