

# **Ipsos Issues Index**

March 2025

# Technical Note

---

This month's Issues Index has been conducted over the phone, a methodology change which has been in place since the April 2020 wave. Mode effects should be kept in mind when comparing the data since April 2020 with previous months.

Ipsos interviewed a representative sample of 1,000 adults aged 18+ across Great Britain. Interviews were conducted by telephone between 5 and 11 March 2025. The data is weighted to match the profile of the population.

Where percentages do not sum to 100, this may be due to computer rounding, the exclusion of "don't know" categories, or multiple answers. An asterisk (\*) denotes any value of less than half a per cent, but more than zero.
