As you may know, Premier Doug Ford recently announced funding changes for the Ontario Student Assistance Program (OSAP), a financial aid program that offers grants and loans to help Ontario students pay for their post-secondary education. These changes would modify the ratio of loans to grants for OSAP, transitioning the non-repayable grant contribution to 25% and the loan contribution to 75%. This means that students applying for OSAP would carry greater debt for the money they receive from OSAP.To what extent do you support or oppose this change to the OSAP funding package structure?
