Table 25

SPM_QTRIANGLE (Party's policies - Points out of 10). I want you to think about what it is that most attracted you to [Party at QSP_VOTE1a/b/c] for your constituency vote.

Some people are attracted mainly by the policies of the party, some by the leaders of the party and some because they identify with the party as a whole.

If you had a total of ten points to allocate according to how important each of these was to you, how many points would you allocate to the leaders of the party you intend to vote for,

how many to its policies, and how many to the party as a whole?

- Party's policies -

7 Apr 2026
Table 43

QCoalitionH. As you may know, there has been some discussion about whether any party will have a majority after this Scottish Parliament election.

If no party has a majority, this will mean that more than one party could have an influence over the Scottish Government, either because they join a coalition or because a minority government relies on their support.

If no party has a clear majority, and thinking about parties other than the SNP, which of the following parties, if any, would you be happy to see having influence over the next Scottish Government?

You may pick more than one.

Base: All respondents
