TOPLINE & METHODOLOGY

Reuters/Ipsos Large Sample Survey

Conducted by Ipsos using KnowledgePanel®
A survey of the American general population (ages 18+)
Interview dates: September 30 to October 5, 2026
Number of interviews: 4,506

Margin of error: +/- 1.5 percentage points at the 95% confidence level for all respondents
Margin of error: +/- 1.7 percentage points at the 95% confidence level for Registered Voters
Margin of error: +/- 2.7 percentage points at the 95% confidence level for Republican respondents
Margin of error: +/- 2.7 percentage points at the 95% confidence level for Democratic respondents
Margin of error: +/- 2.4 percentage points at the 95% confidence level for independent/other respondents

NOTE: All results show percentages among all respondents, unless otherwise labeled. Reduced bases are unweighted values.

*NOTE: * = less than 0.5%, - = no respondents, N/A = not applicable*

Annotated Questionnaire

TM1890Y20. Are you currently registered to vote at your current address, or not?

	Total (N=4,506)	Registered Voters (N=3,526)	Republicans (N=1,339)	Democrats (N=1,337)	Independents /Other (N=1,830)
Yes, registered to vote at my current address	74%	100%	87%	83%	58%
No, not registered to vote at my current address	21%	-	11%	14%	33%
Not sure	5%	-	2%	3%	8%
Skipped	*	-	-	-	*

TOPLINE & METHODOLOGY

About the Study

This Reuters/Ipsos poll was conducted September 30 to October 5, 2026, by Ipsos using the probability-based KnowledgePanel®. This poll is based on a nationally representative probability sample of 4,506 general population adults aged 18 or older.

The study was conducted in English. The data were weighted to adjust for gender by age, race and ethnicity, census region, metropolitan status, education, household income, 2024 vote choice, and political party identification. Political party identification benchmarks are from the 2026 NPORS annual survey. The demographic benchmarks came from the 2026 March supplement of the U.S. Census Bureau's Current Population Survey (CPS).

- Gender (Male, Female) by Age (18–29, 30–44, 45-59 and 60+)
- Race/Hispanic Ethnicity (White Non-Hispanic, Black Non-Hispanic, Other, Non-Hispanic, Hispanic, 2+ Races, Non-Hispanic)
- Education (Less than High School, High School, Some College, Bachelor's degree, Master's degree or higher)
- Census Region (Northeast, Midwest, South, West)
- Metropolitan status (Metro, non-Metro)
- Household Income (Under $25,000, $25,000-$49,999, $50,000-$74,999, $75,000-$99,999, $100,000-$149,999, $150,000+)
- 2024 Vote Choice (Trump, Harris, Another candidate, Did not vote)
- Political Party ID (Democrat, Lean Democrat, Republican, Lean Republican, Independent/Something else)

The margin of sampling error is plus or minus 1.5 percentage points at the 95% confidence level, for results based on the entire sample of adults. The margin of sampling error takes into account the design effect, which was 1.06. The margin of sampling error is higher and varies for results based on sub-samples. In our reporting of the findings, percentage points are rounded off to the nearest whole number. As a result, percentages in a given table column may total slightly higher or lower than 100%. In questions that permit multiple responses, columns may total substantially more than 100%, depending on the number of different responses offered by each respondent.
