# Responding to COVID-19 in African Countries:

DATA DECK: Cross National Findings

---

August 2020

# INTRODUCTION

The COVID-19 pandemic continues to impact societies across health, financial and day to day life.

This document provides the findings from public opinion polls in 18 African Union Member States to understand the public's knowledge, risk perception, attitudes, access to information, reactions, behaviours and practices related to COVID-19.

This DATA DECK is a supplement to the Executive Summary and provides the detailed results.

# METHODOLOGY

The public opinion polls were conducted from 4 August to 17 August 2020. The polling was conducted by telephone.

Samples were drawn to be nationally representative of each Member State; weighting was applied by gender and region to align the final data with the population. The weighted national sample size in each of the surveyed Member States is 1,200 completed interviews.

# Additional Methodology Details

- The public opinion polling was conducted using a telephone interviewing methodology.
- The questionnaire was developed by Resolve to Save Lives, Ipsos and members of the PERC consortium.
- The polling program was approved by local review boards and all respondents gave explicit permission to participate in the research.
- Countries were selected for inclusion based on several factors including feasibility for interviewing and regional representation.
- Note that where referenced, income categories should be interpreted as indicative as sample sizes vary and income reporting can be subject to bias.
- The weighted and unweighted sample sizes for the countries in this report are as follows:

All countries	Cameroon	DRC	Egypt	Tunisia	Ethiopia	Kenya	Sudan	Uganda
Country Code	CM	CD	EG	TN	ET	KE	SD	UG
AU Region	Central		Northern		Eastern

## BACKGROUND

# COVID-19 Across Surveyed Member States

14-day moving average of  
new cases from  
1 March to 19 August

Data Source: Africa CDC

**Note:** South Africa is on a different scale to the rest of the countries

# Awareness & perceptions

# 1

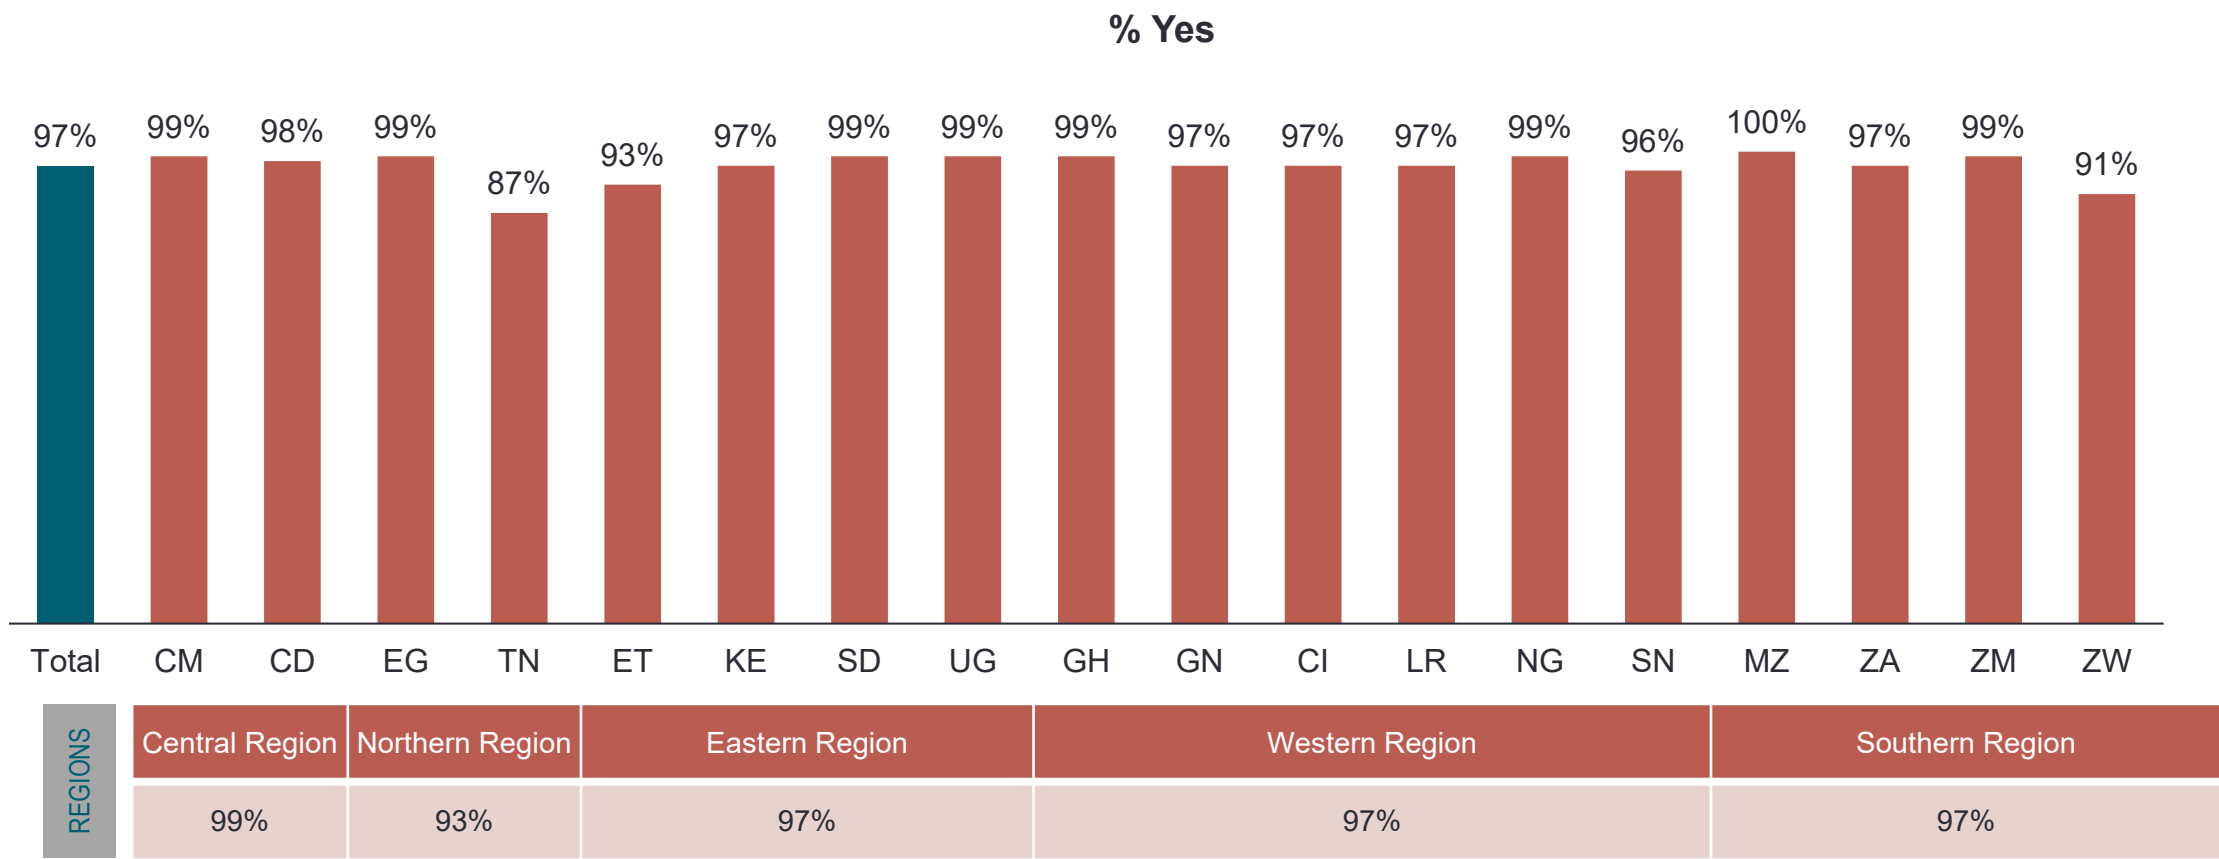

Partnership for Evidence-Based  
Response to COVID-19

# Awareness

Q1. Before now, had you heard of something called the Coronavirus or Covid-19?

# Perception of the virus - % definitely true

Q2a-h. I'm going to read things people have said about coronavirus or Covid-19. Please tell me if you think each is definitely true, probably true, probably false, or definitely false. If you don't know, say so. (% Definitely true)
