

Responding to COVID-19 in African Countries:

Data Deck of Polling Results: Egypt

August 2020

INTRODUCTION

The COVID-19 pandemic continues to impact societies across health, financial and day to day life.

This document provides the findings from public opinion polls in Egypt to understand the public's knowledge, risk perception, attitudes, access to information, reactions, behaviors and practices related to COVID-19.

This Data Deck is supplemented by an Executive Summary of the findings by country.

METHODOLOGY

The public opinion poll in Egypt was conducted from 12 August to 19 August 2020. The polling was conducted by telephone.

Samples were drawn to be nationally representative of each Member State; weighting was applied by gender and region to align the final data with the population. The national unweighted sample size in Egypt is 1,206 interviews.

Additional Methodology Details

- The public opinion polling was conducted using a telephone interviewing methodology.
- The questionnaire was developed by Resolve to Save Lives, Ipsos and members of the PERC consortium.
- The polling program was approved by local review boards and all respondents gave explicit permission to participate in the polling program.
- Note that where referenced, income categories should be interpreted as indicative as sample sizes vary and income reporting can be subject to bias.
- The weighted sample sizes for the demographic breaks in this report are as follows:

	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
Base: All	1200	618	582	462	371	207	122	38	649	551	146	437	319	94

- The percentages reported in this document may be different from percentages reported in other PERC products and communication of this data. Differences may be reconciled by investigating the denominator used, as indicated in each instance of use.

Attitudes toward face masks

2

Perceptions of face masks

Q3 I would now like to ask your opinion about face masks, which some people are wearing at the moment. To what extent do you agree or disagree with the following statements. When other people wear face masks near me, I think...

Q3a. ... they may be infected, and I should stay away from them

Perceptions of face masks

Q3 I would now like to ask your opinion about face masks, which some people are wearing at the moment. To what extent do you agree or disagree with the following statements. When other people wear face masks near me, I think...

Q3b. ... they are being careful, and I appreciate that they are protecting others

Perceptions of face masks

Q3I would now like to ask your opinion about face masks, which some people are wearing at the moment. To what extent do you agree or disagree with the following statements. When other people wear face masks near me, I think...

Q3c. ... they are being foolish, because this is unlikely to protect anyone

Access to face masks

Q4. Do you have a face mask of any kind that is ready for you to wear?

Type of face masks used

Q5. What type of face mask do you have?

		 Gender		 Age					 Urbanity		 Household Monthly Income (USD)			
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+

Reasons for not wearing a face mask

Q6. We are trying to better understand why some people have a face mask and some don't. You say that you currently don't have a mask. Why is that?

Sample size not sufficient for analysis

Impact of the virus

3

Impact of the virus

Q7a. To what extent do you agree or disagree with the following statements?

Q7a. The coronavirus will affect very many people in the country I'm currently living in

Impact of the virus

Q7b. To what extent do you agree or disagree with the following statements?

Q7b. I am confident in my ability to follow information and restrictions given by the government to reduce my risk of getting COVID-19

■ Strongly agree
 ■ Somewhat agree
 ■ Neither agree nor disagree
 ■ Somewhat disagree
 ■ Strongly disagree
 ■ Don't know

Perceived risk of contracting COVID-19

Q8. Please indicate what you think your level of risk of catching coronavirus or COVID-19 is:

Perceptions of the scale of the problem

Q9. If you were infected by coronavirus or COVID-19, how seriously do you think it would affect your health?

Trust & response

4

Trust in organizations – % A great deal or a fair amount

Q12a-p. To what extent, if at all, do you trust each of the following individuals and organizations' handling of the coronavirus in [COUNTRY]? (% A great deal or A fair amount)

Social cohesion

Q10c. There are public health guidelines recommended to restrict the spread of coronavirus. These include maintaining a minimum distance from people you are not in contact with regularly and limiting the number of people who can gather together. Which is closer to your point of view about these recommended actions?

		 Gender		 Age					 Urbanity		 Household Monthly Income (USD)			
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
Base: All	1200	618	582	462	371	207	122	38	649	551	146	437	319	94
Taking these actions will protect others I come in contact with from getting infected with COVID-19	90%	88%	92%	85%	90%	93%	96%	97%	91%	89%	87%	89%	93%	96%
taking these actions will have no impact in protecting others I come in contact with from getting infected	8%	9%	7%	11%	8%	6%	4%	0%	7%	8%	10%	11%	6%	4%

Loosening restrictions now versus getting the economy moving

Q16. Some people say that loosening restrictions now puts too many people at risk of contracting COVID-19 and we need to wait at least a few more weeks. Other people say that the health risk is minimal if people follow social distancing rules and we need to get the economy moving again. Which is closer to your point of view?

	Gender		Age					Urbanity		Household Monthly Income (USD)				
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
