

Responding to COVID-19 in African Countries:

Executive Summary of Polling Results: Senegal

August 2020

INTRODUCTION

The COVID-19 pandemic continues to impact societies across health, financial and day to day life.

This document provides the findings from public opinion polls in Senegal to understand the public's knowledge, risk perception, attitudes, access to information, reactions, behaviors and practices related to COVID-19.

This Executive Summary is supplemented by an Appendix with the results should readers require additional detail.

METHODOLOGY

The public opinion poll in Senegal was conducted from 3 August to 17 August 2020. The polling was conducted by telephone.

Samples were drawn to be nationally representative of each Member State; weighting was applied by gender and region to align the final data with the population. The unweighted national sample size in Senegal is 1,259 interviews.

Key Findings

- **PHSM support and adherence:** Both support and self-reported adherence are high for personal preventive measures such as washing hands, and 95% of respondents in Senegal report wearing a face mask in the previous week. However, support and self-reported adherence are lower for measures that restrict economic activity, such as staying home or reducing trips to the market, as well as for avoiding places of worship. Dissatisfaction with the government response is higher among survey respondents in Senegal than other African Union (AU) Member States surveyed, with fewer than one in five saying they are very satisfied.
- **Risk perceptions and information:** Only one-third respondents in Senegal believe they are at high or very high risk for contracting COVID-19, and perceptions of disease severity are low compared to the average across African Union (AU) Member States surveyed. Close to half believe rumors or myths about foreign interference.
- **Essential health services:** A substantial proportion of respondents in Senegal who needed medical care have had difficulty accessing health care visits (22%) or medicines (37%) during the COVID-19 crisis, and those with longstanding health issues are particularly affected.
- **Economic burden and food security:** A majority of respondents (68%) report having lost income since last year, and many are facing difficulty accessing food. However, almost two-thirds of respondents report receiving aid from the government in the past month, the highest proportion across all AU Member States surveyed.

Information, Perception & Misinformation

Preventive Measures

- % True for ALL three statements:**
- Washing hands helps prevent getting COVID-19
 - Infected people may not show symptoms for 5 to 14 days
 - Wearing a face mask when around other people prevents the spread of COVID-19

Reaction to Recovered Patients

- % True (one statement):**
- People who have recovered from COVID-19 should be avoided to prevent spreading it.

Misinformation

- % True for BOTH statements:**
- Foreigners are discrediting African medicines which could cure COVID-19
 - Foreigners are trying to test vaccines on us

Q2. I'm going to read things people have said about coronavirus or COVID-19. Please tell me if you think each is definitely true, probably true, probably false, or definitely false. If you don't know, say so. (True = Definitely + Probably True)

Risk Perceptions

Perceived risk of catching COVID-19:

Q8. Please indicate what you think your level of risk of catching coronavirus or COVID-19 is: Very high, High, Medium, Low, Very Low, Don't know

Perceived severity of COVID-19 on health:

Q9. If you were infected by coronavirus or COVID-19, how seriously do you think it would affect your health? Not at all seriously, Somewhat seriously, Very seriously, Extremely seriously, Don't know / no response

Satisfaction and Trust with the COVID-19 Response

Satisfaction with Government response to COVID-19:

■ % Very Satisfied ■ % Somewhat Satisfied

Q11. How satisfied are you with your (Senegal) overnment's response to coronavirus or COVID-19? Very satisfied, Somewhat satisfied, Somewhat dissatisfied, Very dissatisfied, Don't know / not sure

Trust in handling of COVID-19

% Trust a great deal + fair amount

Q12. To what extent, if at all, do you trust each of the following individuals and organizations' handling of the coronavirus in Senegal? A great deal, A fair amount, Not very much, Not at all, Don't know, Not heard of organisation, Not applicable.

SUMMARY OF Public Health and Social Measures (PHSMs)

Public Health and Social Measures (PHSMs)

| | Adherence: level to which these activities describe “you personally” | | | | Support: perception of necessity | | |
|---|--|-----------------------|--------------------------|-----------------------------|----------------------------------|---------------------------|-----------------------------|
| | <i>Completely applies</i> | <i>Mostly applies</i> | <i>Sometimes applies</i> | <i>Does not apply to me</i> | <i>Absolutely necessary</i> | <i>Somewhat necessary</i> | <i>Not really necessary</i> |
| Wear a face mask in public when near others | 82 | 13 | 3 | 2 | 83 | 14 | 3 |
| Wash more often than they used to | 87 | 10 | 3 | 10 | 87 | 12 | 1 |
| Avoid handshakes and physical greetings | 67 | 21 | 7 | 5 | 72 | 23 | 4 |
| PERSONAL PHSMS: SUMMARY | 79 | 15 | 4 | 6 | 81 | 16 | 3 |
| Stop joining public gatherings and places of entertainment | 58 | 20 | 10 | 11 | 63 | 25 | 11 |
| Stop going to the church/mosque | 34 | 20 | 17 | 30 | 37 | 25 | 35 |
| PUBLIC GATHERING PHSMS: SUMMARY | 46 | 20 | 14 | 21 | 50 | 25 | 23 |
| Reduce the number of times going to the market or grocery store | 35 | 26 | 19 | 20 | 45 | 32 | 22 |
| Staying home instead of going to work, school or other regular activities | 31 | 21 | 19 | 29 | 35 | 27 | 38 |
| MOBILITY PHSMS: SUMMARY | 33 | 24 | 19 | 25 | 40 | 30 | 30 |

Please see Appendix for detail by country

Q13. Over the past seven days, to what extent do each of the following describe you personally?

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?

Face masks: Perceptions, Use and Attitudes

When other people wear face masks near me, I think...

99% have a face mask ready to wear

Adherence:
Wear a Face Mask in Public Around Others:
Completely applies: 82%
Mostly applies: 13%

Q4. Do you have a face mask of any kind that is ready for you to wear?
 Q13g. Over the past seven days, to what extent do each of the following describe you personally?: G) Wearing a face mask in public when near others

Q3. I would now like to ask your opinion about face masks, which some people are wearing at the moment. To what extent do you agree or disagree with the following statements? Showing % agree (Strongly + Somewhat agree)

Impact on Health Care Services

Missed, Delayed or Skipped Health Care Services:

| % Yes: (among those requiring services) | 25% |
|--|-----|
| People with longstanding illness | 26% |
| Women | 23% |
| Low Income (HH Income <100) | 26% |
| High Income (HH Income 501+) | 36% |
| Urban | 26% |
| Rural | 24% |

Base = require services (60%)

Difficulty accessing medications:

| % Much More Difficult (among those requiring medications) | 9% |
|--|-----|
| People with longstanding illness | 11% |
| Women | 8% |
| Low Income (HH Income <100) | 9% |
| High Income (HH Income 501+) | 13% |
| Urban | 11% |
| Rural | 7% |

Base = require medication (92%)

Q21. Have you or any other person in your household delayed, skipped or been unable to complete health care visits since the COVID-19 crisis?

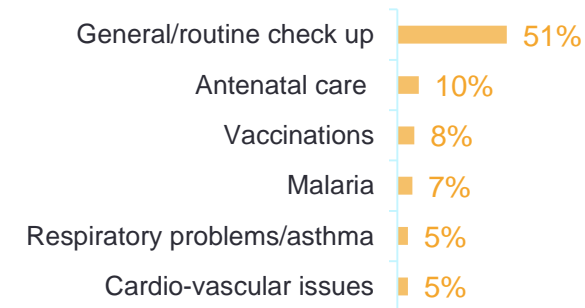

Q24. Has the COVID-19 crisis made it more difficult to obtain medications you need for you or your household or has it had no impact? If you do not need medications, please say so.

Reason for Missed, Delayed or Skipped Services:

Types of services missed, delayed or skipped:

Q22. Why have you or another person in your household delayed, skipped or been unable to complete health care visits since the COVID-19 crisis?

Q23. And do you mind if I ask what those delayed, missed or not completed health care visits were for?

Economic and Food Relief Measures

Barriers and Difficulties Purchasing Food

| | Total | Male | Female | Urban | Rural | HH income < 100USD | HH income 500+ |
|--|-------|------|--------|-------|-------|--------------------|----------------|
| EXPERIENCED 'ANY' BARRIER ONE DAY OR MORE: | 56 | 57 | 56 | 50 | 61 | 68 | 63 |
| <i>Experienced 1 day or more:</i> | | | | | | | |
| ...had difficulties in going to food markets due to restrictions imposed | 42 | 41 | 41 | 35 | 47 | 50 | 48 |
| ...had difficulties in buying food due to most food markets being closed? | 42 | 42 | 41 | 35 | 47 | 55 | 49 |
| ...been unable to buy the amount of food you usually buy because of shortages in the markets | 42 | 42 | 40 | 34 | 46 | 55 | 48 |
| ...been unable to buy the amount of food you usually buy because the price was too high? | 44 | 45 | 46 | 41 | 50 | 58 | 56 |
| ...been unable to buy the amount of food you usually buy because your income has dropped? | 44 | 45 | 41 | 38 | 49 | 58 | 52 |

Q17. In the past 7 days, how many days have you or someone in your household experienced any of the following?

| Impact on Income: % Reporting Income is Smaller than last year | 69% |
|---|-----|
| Women | 71% |
| Men | 68% |
| Low Income (HH Income <100) | 73% |
| High Income (HH Income 501+) | 67% |
| Urban | 68% |
| Rural | 70% |

Q18. How does the amount of money you made in the past 7 days compare to the amount you made this time last year? Is it... Bigger, Smaller, Stayed the Same, Don't make any, Don't know.

| Impact on Unpaid work: % Reporting More Hours on Unpaid Work | 20% |
|---|-----|
| Women | 21% |
| Men | 18% |
| Low Income (HH Income <100) | 19% |
| High Income (HH Income 501+) | 21% |
| Urban | 20% |
| Rural | 19% |

Q19. Since the crisis began, have you had a change in your hours spent on unpaid work, such as childcare, care of the elderly and housework? More hours, less hours, no change in hours, don't know.

Concerns about resuming normal activities

Thinking about resuming normal activities after the lockdown makes me feel very anxious

Q15. To what extent do you agree or disagree with the following statements?

I would feel comfortable taking public transportation such as local buses or trains if it was not too busy

Q15. To what extent do you agree or disagree with the following statements?

Expectations about COVID-19

Loosening Restrictions: “too risky to loosen restrictions” versus “there is a low risk and need to get economy moving”

Q16. Some people say that loosening restrictions now puts too many people at risk of contracting COVID-19 and we need to wait at least a few more weeks. Other people say that the health risk is minimal if people follow social distancing rules and we need to get the economy moving again. Which is closer to your point of view?

It will be at least six months before COVID-19 is contained

Q15. To what extent to you agree or disagree with the following statements?

Response to COVID-19

Additional Methodology Details

- The public opinion polling was conducted using a telephone interviewing methodology.
- The questionnaire was developed by Resolve to Save Lives, Ipsos and members of the PERC consortium.
- The polling program was approved by local review boards and all respondents gave explicit permission to participate in the polling.
- Note that where referenced, income categories should be interpreted as indicative as sample sizes vary and income reporting can be subject to bias.
- The weighted sample sizes for the demographic breaks in this report are as follows:

| | Total | Male | Female | 18-25 | 26-35 | 36-45 | 46-55 | 56+ | Urban | Rural | Under 100 | 101 - 200 | 201 - 500 | 501+ |
|--------------|-------|------|--------|-------|-------|-------|-------|-----|-------|-------|-----------|-----------|-----------|------|
| Base: All | 1200 | 598 | 602 | 300 | 510 | 239 | 97 | 54 | 542 | 658 | 118 | 219 | 200 | 274 |

- The percentages reported in this document may be different from percentages reported in other PERC products and communication of this data. Differences may be reconciled by investigating the denominator used, as indicated in each instance of use.

Partnership for Evidence-Based
Response to COVID-19

PERSONAL Public health and social measure (PHSM)

Washing my hands many times per day

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Washing my hands with soap or using hand sanitizer many times per day

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: ...wash their hands with soap or use hand sanitizer more often than they used to

PERSONAL Public health and social measure (PHSM)

Avoiding handshakes and physical greetings

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Avoiding handshakes and physical greetings

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: Avoiding handshakes and physical greetings

PERSONAL Public health and social measure (PHSM)

Wearing a face mask in public when near others

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Wearing a face mask in public when near others

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: Wearing a face mask in public

PUBLIC GATHERING Public health and social measure (PHSM)

Avoiding the church/mosque

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Avoiding the church/mosque

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: Avoiding the church/mosque

PUBLIC GATHERING Public health and social measure (PHSM)

Avoiding public gatherings and places of entertainment

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Avoiding public gatherings and places of entertainment

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: Avoiding public gatherings and places of entertainment

MOBILITY Public health and social measure (PHSM)

Staying home instead of going to work, school or other regular activities

Adherence

■ Completely applies ■ Mostly applies

Support

■ Absolutely necessary ■ Somewhat necessary

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Staying home instead of going to work, school or other regular activities

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: Staying home instead of going to work, school or other regular activities

MOBILITY Public health and social measure (PHSM)

Reducing the number of times I go to the market or grocery store

Q13. Over the past seven days, to what extent do each of the following describe you personally?: Reducing the number of times I go to the market or grocery store

Q14. Thinking of the last four weeks, was asking people to do each of the following absolutely necessary, somewhat necessary, or not really necessary to limiting the spread of COVID-19 in Senegal?: Reducing the number of times I go to the market or grocery store
